51. Where an insurance company is being wound up, the value of a policy of any class or of a liability under such a policy requiring to be valued in such winding up shall be estimated in the manner, applicable to policies and liabilities of that class, provided by the Sixth Schedule.

itules of value.

52. The rules in the Sixth Schodule shall be of the same force, and may be repealed, aftered, or amended, as if they were rules made in pursuance of section 246 of the Indian Companies Act, 1913, and rules may be made under that section V11 of 1913; for the purpose of carrying into effect the provisions of this Act with respect to the winding up of insurance companies.

Natice of policy

53. Where an insurance company is being wound up, the liquidator, in the case of all persons appearing by the books of the company to be entitled to or interested in policies granted by the company, shall ascertain the value of the liability of the company to each such person, and shall give notice of such value to those persons in such manner as the Conft may direct, and any person to whom notice is so given shall be bound by the value so ascertained unless he gives notice of his intention to dispute such value in such manner and within such time as may be specified by a rule or order of the Courts.

Power of Court odnuanica.

The Court, in the case of a life insurance company which has been proved to be insolvent, may, if it thinks fit, in piace of making a winding up order, reduce the amount of the contracts of the life insurance company upon such terms and ambject to such conditions as it thinks just.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to provide for the Regulation of Insurance Companies operating in India.

There are two Acts at present in force in India relating to Insurance Companies. One is the Indian Life Assurance Companies Act VI of 1912, and the other is the Provident Insurance Societies Act V of 1912. It is considered that the law should regulate all forms of insurance business carried on in India. It is proposed, therefore, to repeal Act VI of 1912 and to replace it by this Bill. As will be seen from the definition of "Insurance Company" in clause 2 (i), the Bill will apply to every Company which carries on, or intends to carry on, any class of insurance business in British India, either directly or indirectly through an Agent. Companies registered under the Provident Insurance Societies Act, have been excluded from the scope of the Bill, but it is proposed to amend section 3 of this Act with the object of imposing the same limits as are at present prescribed in the case of life assurance business on every kind of insurance business carried on by Provident Insurance Societies.

In framing the Bill, it has been provisionally decided to continue the policy of the Indian Life Assurance Companies Act VI of 1912, and to rely for the protection of the public mainly on a policy of allowing no Insurance Company to carry on business in India, unless and until it has paid a deposit to Government. These deposits should prevent the establishment of mushroom Companies. In addition, it is proposed to insist on the fullost measure of publicity in regard to the working of each Company, in order that the public may judge for themselves whether it is worked on sound and prudent lines. It is also proposed to tighten the control of Government over Insurance Companies in some respects.

NOTES ON CLAUSES.

Clause 2 (f),—The definition of 'dividing society' is taken from the existing rules issued under the Indian Life Assurance Companies Act, VI of 1912. Under clause $55\,(2)\,(c)$ power is taken to prescribe by rule the additional statements of business to be prepared by such societies and the manner in which such statements shall be furnished to the Governor General in Council.

Clause 2 (r).—The definition of "workmen's compensation insurance business" contains no reference to the issue of, or the undertaking of liabilities under, policies. "It is provisionally thought necessary to bring within the scope of the Act associations of employers which, without issuing policies or undertaking liabilities under policies of insurance, carry on such business for the mutual insurance of their members. Such associations may be excused from making deposits under clause 12, and may be exempted from other provisions of the Bill under clause 57.

Clause 9.—It is thought that the practice which it is proposed to prohibit is objectionable and should not be allowed.

Chaise 10.—It is proposed that every Insurance Company carrying on, or intending to carry on, business in British India should make a deposit of Government securities, and that the exemption from this obligation hitherto allowed by sections 32 and 33 of Act VI of 1942 to Assurance Companies carrying on life assurance business in the United Kingdom should be withdrawn. The main purpose of the deposit is to prevent the growth of mushroom companies. On the other hand, it is not intended to prevent the establishment of new and sound companies. The amount of the deposits has been fixed with reference to these two considerations.

Clause 11.—It is proposed that Life Insurance Companies constituted in British India should be allowed to make the deposit in five annual instalments. The equession is based on the provisions of section 4 of Act VI of 1912. It is not considered necessary that the same concession should be allowed to Companies carrying on other kinds of insurance business.

Clause 12.—Power is taken to exempt mutual societies, with or without conditions, from the obligation to make deposits. There are a number of Indian Mutual Companies which could not, without great hardship, make deposits.

Chause 15.—The object of the clause is to protect deposits from attachment under any judgment obtained by a creditor of the Company. It is believed that deposits under the English Act & 1909 are not liable to attachment.

Clauses 18 and 19.—These clauses deal with the question of separate accounts and funds for each class of insurance business carried on by a Company. Separate funds and accounts are made obligatory in respect of life insurance business and workmen's compensation insurance business transacted in India. But joint accounts can be allowed in the case of other kinds of insurance business. The proposals are in accordance with English law on the subject.

Clause 22.—Bub-clauses (1) and (2) repeat foot-notes (2) and (3) to Form A in the First Schedule to Act VI of 1912. Sub-clause (2) prescribes the supply of information which will be a valuable index to growth of the insurance habit in India.

Clause 28 (1).—In the case of accident insurance business and workmen's compansation insurance business, where an outstanding claim frequently takes the form of a periodical payment extending over a long period, it is important that full particulars of such claims and the liability estimated in respect thereof should be appended to the Revenue Account. The form of statement will be prescribed by rules under the Act. For similar statements, compare Forms C and D in the Fourth Schedule to the English Assurance Companies Act, 1909.

Clause 28 (2).—Leading Fire Insurance Companies usually make it a rule that the reserve for unexpired risks should not be less than 40 per cent. of the premium income of the year. The practice is a wholesome one, and this clause is designed to encourage it.

Clauses 24 (1) and (2).—These two clauses are modelled on foot-note 2 to the form of balance sheet in the Third Schedule of Act VI of 1912. It is considered important, for the protection of the public, that investments should be properly valued in the balance sheet.

Classes 24 (3).—This clause is taken from foot-note 3 to the form of balance sheet in the First Schedule of Act VI of 1912.

Clause 24 (4).—Compare section 18 (1) of the English Industrial Assurance Act of 1923. In regard to Life Insurance Companies in India, the practice enjoined by this / clause is already obligatory under rule 14 of the rules is already obligatory under rule 14 of the rules is already obligatory.

Clause 24 (5).—This clause is modelled on rule 8 (c) of the rules issued under Act VI of 1912.

. * Clause 24 (6).—Under Act VI of 1912, Life Assurance Companies have to submit this information in a separate statement to be submitted along with their Revenue Account.*

See also clause 29 (6).

Clause 24 (7). —See foot-note 1 to the form of balance sheet in the Third Schedule of Act V1 of 1912.

Clause 25.—See section 8 of Act VI of 1912. Sub-clause (8) corresponds to rule 5 of the rules issued under the above Act.

Clause 29.—The forms prescribed in the Schedule to the Bill are modelled on those prescribed by the English Assurance Companies Act of 1909. It is sufficient, therefore, that Companies constituted outside British India, to which the above Act applies, should submit copies of the returns which they are required to send to the Board of Trade. See section 33 of Act VI of 1912. But additional statements relating to the business of the Company in India are presented.

Clause 29 (d) prescribes that a company carrying on workmen's compensation insurance business in British India must submit a revenue account in respect of such business. Compare Form D in the first schedule to the English Assurance Companies, Act, 1909.

Clause 30.—Sub-clause (1) is taken from section 11 (2) of Act VI of 1912, Sub-clauses (2) and (3) are modelled on section 16 of Industrial Assurance Act, 1923.

Clause 31 (1).—The provisions of section 37 (1) of Act VI of 1912 have not been repeated in the Bill. No use has ever been made of these provisions. The clause is modelled on section 37 (11).

Clause 32. This clause is new and represents an important departure. It enables Government to deal with a Life Insurance Company whose returns show it to be on the verge of insolvency. Under section 22 (b) of Act VI of 1912, which is repeated in clause 48 (c) of this Bill, the Governor-General in Council may apply to the court to have a Company, which appears to him to be insolvent, wound up. But there may be cases in which strong actuarial advise may restore an unsound Company to a strong and flourishing condition, and it is proposed by this clause to give the Governor-General in Council power to require a Life Insurance Company, in cases where there is reason to doubt its ability to fulfil its contracts, to submit its affairs to actuarial examination.

Clause 89.—The forms in which Insurance Companies have to submit their seturns to the Governor-General in Council have been carefully drawn up in order that these feturus may contain essential information. It is a necessary enfoguard that this information should also be made available to the public.

Classe #1.—The procedure in regard to amalgamation has been slightly simplified. Compare section 20 of Act VI of 1912.

Clause 47.—See section 34 of Aut VI of 1912. The clause makes it plain that the default shall be a ground on which any shareholder or policyholder may apply, at the

expense of the Company, for a winding order. Section 34 of Act VI of 1912 does not my who is to approach the court for a winding up order.

Clause 54,-Bos metion 26 of Act VI of 1912.

Clause 66 (3) (7).—This matter is dealt with by rule 15 of the rules issued under Act VI of 1912. In order to prevent abuses, it is considered necessary for the disternor-tieneral in Conneil to have power to prescribe the extent to which the premiums referred to in the clause may be treated as assets.

Clause St,-Taken from section 41 of Aut VI of 1912.

Clause 69.—The effect of section 3 of the Provident Insurance Societies Act, 1905, is to limit the extent to which such societies might carry on life resurance business. The amendment proposed is designed to limit the extent to which Provident Insurance Societies may carry on any kind of insurance business.

Nutes on the Schedules.

Forms A is, C and D are based on the corresponding forms of the English Act of 1988.

Form A in the draft does not follow the form in the English Act by requiring the fallowing nems to be shown separately for business within and out of the United Kingdom.

Promiums, Consideration for annuities, Claims by death, Claims by maturity, Surrenders, Annuities, Bonuses in cash, Lonuses in reduction of premium, Commission.

By the provisions of clauses 22 (3) and 29 (a), however, the Indian premium income must be stated separately not only for life insurance but for all classes of insurance business. As the consideration for immediate annuities can be ascertained from the returns under the new 5th behelule at as not considered necessary to have a separate entry for that it is as in the English Act.

Notes 1 and 2 to form A in the English Act are covered by the foot-note to form A in the draft 1 ili. Note 3 is covered by the provisions of clause 22 (1). Note 1 by clauses 22 (2) and 24 (5). Note 5 by clause 27. Note 6 by clause 55 (2) (2). In Form 1) of the 1st Schedule to the draft Bill the amount of the outstanding claims,

In Form D of the let Schedule to the draft Bill the amount of the outstanding claims, is included in the fire converance fund instead of being shown separately in the balance wheet as in the English Act.

In the form of balance sheet shown in the 3rd Schedule claims under life insurance policies have been apid up into claims admitted but not paid and claims infimated but not admitted. On the assets side of the balance sheet leans and mortgages are included under the general heading of investments. The heads under which many of the other investments have to be entered have been re-arranged to suit the conditions of Indian companies.

Note 1 to the form of balance sheet in the English Act is dealt with in clause 24 (7) of the draft Bill. Note 2 by the foot-note to the form of balance-sheet in the draft Bill. Note 3 by clauses 24 (1) and 24 (2). Note 4 by clause 20 and the Bule to be framed under clause 35 (2) 16).

The draft 4th Schedule contains under questions 8 and 17 items which under the English Art are dealt with under headings 10 and 11 of the 5th Schedule to that Act. It also includes several items previously dealt with by the Rules issued under the Induan Life Assurance Act of 1912

The principal changes compared with the English Act are under draft questions Nos. 6, 8, 11, 13, 14, 17 and 19. Also in the foot-notes to the two forms referred to in question No. 16. The forms corresponding to forms C and D of the 4th Schedule to the English Act are provided for in draft clause 23 (1).

No reference has been made in the Hill to bond investment business as it is not intended to treat such business as insurance business. There are in Madras Pfesidoney a very large number of persons or associations known as Nidhis who transact bond unvestment business on a simpli scale and in such a way that it would not be feasible to bring it under the operation of this Act.

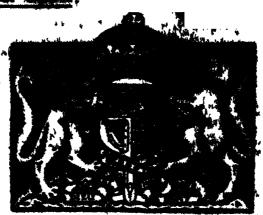

bring it under the operation of this Act.

The 6th Schedule in the full corresponds to the 6th Schedule of the English Act.

The draft 7th Schedule corresponds to statement D of the Indian Life Assurance Act of 1917

The 7th Achedule of the English Act is covered by clause 53 of the 4raft bill. No schodule has been prepared corresponding to the 8th Schedule to the English Act.

Legislative Department.

[AS INTRODUCED IN THE LEGISLATIVE ASSEMBLY.]

A Bill further to amend the Legal Practitioners Act, 1879.

WHEREAS it is expedient further to amend the Legal Practitioners Act, 1879, for the purposes hereinafter XVIII of appearing; It is hereby enacted as follows:—

Alkort title.

1. This Act may be called the Legal Practitioners (Amendment) Act, 192 .

Amendment of section 2, Act XVIII of 1879.

2. For the definition of "tout" in section 3 of the Legal Practitioners Act, 1879 (hereinafter referred to as XVIII of the said Act), the following definition shall be substituted, 1879.

- " 'tou; ' means a person-
- (a) who procures the employment in any legal business of any legal practitioner, in consideration of any remuneration moving from such practitioner or from any person interested in such business; or who proposes to prosure the employment in any legal business of any legal practitioner to such legal practitioner or to any person interested in such business, in consideration of any remuneration moving from eitzer of them; or
- (b) who habitually frequents the procincts of Civil or Criminal Courts or revenue-offices or railway stations, landing stages, lodging places, or other places of public resort for the purposes of such, procurement."

- In section 36 of the said Act,-
 - (a) in sub-section (P) after the word "antisfaction" the words "or to the matisfaction of any subordinate Court as provided in sub-section (2A," shall be impersed ;
 - (b) to sub-section (I) the following Baplanation shall be edded, namely :-
- "Esployation.—Evidence of general sepute includes especially person by a majority of not less than two-life the magnificer of an amostation of parames entitled inciation of persons untitled to

Ger, declaring that

- ey the folk Samely: shall be
- "(2.4) A Court Didge, Magistrate or officer em-powered under sub-section (1) to frame and publish a list of looks may send to any Court embordings to such authority a list of persons alleged or emproper to be touts; the subordinate Court shall thereupon hold an inquiry into the conduct of the persons mentioned in such list, and shall report whether any such person has been proved to its antisfaction to be a tout, to the authority, by which the list was sent; and that authority, where any such person is proved to the satisfaction of the subordinate Court to be a tout, shall include the name of such person in the list of touts framed and published by that authority."
- (b) after sub-section (5) the following sub-section shall be inserted, namely :-
- "(6) Any person whose name is included in any such list who acts as a tout shall be punished with imprisonment which may extend to six months, or with fine which may extend to five hundred rupees, or with both."

STATEMENT OF OBJECTS AND REASONS.

In their report the Bar Committee made the following observations in regard to touting :--

"We feel that our report would not be complete without some reference to an evil which was brought prominently to our notice in the course of our enquiry. evidence which we have received leaves no doubt that touting of various kinds prevails in most parts of India. The law with reference to tenting was strengthened in 1896, but has proved entirely ineffective. The plain fact is that unless the legal profession assists the courts to suppress touts little can be done by way of legislation."

The Civil Justice Committee also referred to the fact that the employment of touts

is the evident and immediate cause of many false claims and defences and of much waste

of time in courts.

The question of amending the law so as to permit of the effective suppression of touting was considered at length by the Government of India in consultation with the local Governments and with judicial authorities immediately before the war, and it was only because of the war that legislation was not then undertaken. The Government of India consider that in view of the observations of the two Committees referred to above, in regard to the inefficiency of the present law and the evils attendant upon touting, legislation on the matter should no longer be delayed. The Civil Justice Committee have. made definite recommendations for the amendment of the law and these have been. considered with the conclusions which had been arrived at by the Government of India in 1913 to 1915. The result of that consideration is embodied in the present Bill. Briefly it is proposed to amond the law in the four following respects:-

- (i) to extend the definition of a tout in section 3 of the Legal Practitioners Act. 1872, so as to include firstly, persons whose remuneration comes from any person interested in any legal business as well as persons whose remuneration comes from the legal practitioner himself and secondly, persons who habitually frequent piaces of public resort for the purpose of procuring the employment in any legal business of any legal practitioner;
- (ii) to permit the receipt of a resolution passed by a tnajority of not less than twothirds of the members of a Bar Association as evidence of general repute;
- (iii) to enable the courts and authorities who may now-frame and publish lists of touts to cause enquiries to be beld by a suberdinate court, which enquiries, if the subordinate court cancludes that the persons in question have been proved to be touts, will lead to their inclusion in the list of touts framed and published under section 36 of the Legal Practitioners Act; and
- (ir) to penalize any person whose name has been included in a list of touts who continues to act as a tout,

In resurd to the last point it will be observed that under section 36 of the Legal Practitioners Act the authorities are only empowered to exclude from the precincts of the court persons named in the list of touts. With the extension of the definition of a tout to persons who frequent places of public resurt other than civil or criminal courts or has offices senal provision is required as was in fast recommended by the Civil Justice Committee.

STATEMENT OF OPJECTS AND REASONS.

The inadequacy of the provisions of the Provincial Insolvency Act to meet the requirements of the town of Karachi has been brought to the notice of the Government of Indus from time to time since 1909 when the Presidency-towns Insolvency Act was passed. The question was, for example, raised in connection with the revision of the Provincial Insolvency Act in 1920. Hitherto the Government of India have adopted the view that the machinery of the Presidency-towns Insolvency Act, 1909, as not suitable for a Court of less status than a Chief Court, and further that the changes introduced in the Provincial Insolvency Law by Act V of 1920 were probably sufficiently adequate to preclude the necessity of the extension of the Presidency-towns, Insolvency Act to Karachi. The Civil Justice Committee have considered the matter further and have strongly recommended that the Presidency-towns Inscivency Act should be applied to Karachi with as little delay as possible. The question of raising the status of the Court of the Judicial Commissioner of Sind to a Chief Court is also under the consideration of the Government of Bombay. The present Bill proposes to give effect to this recommendation and also to two other recommendations made by the Civil Justice Committee, namely :-

- (f) that provisions on the lines of sub-section (5) of section. 70, of the Provincial Insolvency &ct, 1920, should be inserted in section 104 of the Presidencytowns insolvency Act, 1909, so as to enable the Insolvency Court instelld of protecding itself to try the case to make a compagnit to the nearest first class Magistrate having jurisdiction; and
- (ii) that the existing procedure in section 104 of the Presidency-towns Insolvency Act and in section 70 of the Provincial Insolvency Act by which before a Court proceeds to try an insolvent or debtor for certain offences against the insolvency law, it is required to serve a notice or summons on the insolvent or debter to show cause why a charge or charges should not be framed against him should be modified on the lines of the Roglish Bankruptcy Law under which an order for prosecution may be obtained from the Court without consulting the bankrup: on the subject.

Advantage has also been taken of this opportunity to make certain formal amondments to the Presidency-jowns Insolvency Act necessifical by the constitution of a High Court of Judicatore at Ranguon,

A. P. MUDDINAN.

- 4. Prices of selt in Constitution. The average wholesale prices per manual of salt inclusive of dety at all the district headquarters during the past three years are shown in Appendix A. There was a decrease of 13 annas and 10 pies at compared with the previous year's average.
- 8. Salipetre refineries and soda factories.—There were two licensed saltpetre refineries at Kakurgachi, as compared with 3 refineries in the previous year. The quantity of refined saltpetre produced during the year was 1 059 maunds, as compared with 1,440 maunds in the previous year. The decrease in the production was due to the closure of one refinery. No quantity of purified salt or sitta timpure salt) was educed in the process of refinement during the year under report, and there was no sale of purified salt. A sum of Rs. 100 was realized as license-fee from the two saltpetre refineries. There was no factory for the manufacture of sulphate of soda.
- 9. Inland bonded warehouses.—There were 6 private bonded warehouses in this Presidency, viz., 1 at Naraingunge, 3 at Jhalakati and 2 at Chandpur. One warehouse at Jhalakati was closed during the course of the year. The warehouse at Naraingunge in the district of Darca was impected by the Collector of Darca, the Superintendent of Excise and Salt, Darca, and the Sub-Divisional Officer of Naraingunge. The warehouses at Jhalakati in the district of Bakarganj were inspected by the Superintendent of Excise and Salt of the district. The warehouses at Chandpur in the district of Tippera were inspected by the Sub-Divisional Officer of Chandpur and the Superintendent of Excise and Salt, Tippera.

Annual report of the Regal Botanic Garden and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1924-25.

BOYAL BOTANIC CARDEN.

1. General—A period of drought during the first few months of the year under review added to the difficulties of gardening operations already made perplexing by the necessity of accommodating oneself to a reduced budget and exploring every avenue for the reduction of expenditure. The months of April and May were exceedingly hot and dry for a garden containing so many exotic species unaccustomed to extremes of climats. To prevent mortality in such circumstances is impossible. The best one can do is to replace as fast as inroads on the collections are made and to nurse casualties back to health. Additions to the garden therefore called for special attention during the year, and Mr. Mitra, officiating Curator in charge, throughout the period, when planting out could be done, deserves special mention for his praiseworthy efforts in bringing round sickly plants and in the replacement of those that had failed altogether to stand the adverse conditions. The early period of drought had, however, a compensatory effect in restricting the development of grass and undergrowth, and so rendering the lawns and other parts of the garden, where mowing or sickling is regularly carried on, comparatively easy of maintenance. The rains were prolonged into the month of November find water, therefore, was available in sufficient quantity to dispense with an early running of the pumping plant for supply to garden lakes.

Amongst operations of a routine nature the renovation and eulargement of collections under cover may be specially mentioned. The Orchid house which, so far as the beds are concerned, was reconstructed two years ago has gained much through the attention paid to it. The ground collections here have now had time to completely accommodate themselves to the new beds, while the hanging collection renewed by the accession of consignments of orchids from the Assam jungles have little to add to the attractiveness of this, the favourite resort for visitors. Though closed to the public and therefore little known, the main shade house of the nursery is now second to none in the garden. ·Here the collections of foliage plants and in particular of palms in pots are housed and brought to a condition suitable for exhibit in the out-houses. With a view to gradually increasing the out collections so dependant on this nursery for variety and effectiveness efforts were made during the year to bring the stock collections to a state fit to meet any demands made on them. A rearrangement was effected allowing of easy determinate nation of what the collections contained and the more valuable or rarer species were housed and locked off in a secondary enclosure within the main structure. Experience has demonstrated, the utility of this elementary precaution, for it may not be generally known that the local mali, general garden worker or even casual visitor is not so ignorant of the relative values of the different plants he has opportunity to handle as he is sometimes supposed to be. Losses there have been and plants once in the collections have disappeared and reappeared on sale, but petty theft is an offence not confined to any garden. What is pleasant to report is the perceptible abatement in that form of crime which has as its object only a wilful and senseless spoliation of plants and garden property to satisfy a craving for destruction and to prevent the enjoyment of others.

In common with annuals in the district this class of plant appeared very late in bloom, the long cold season no doubt being responsible for this. A collection of rose grafts for the garden was acquired from North-West India at the beginning of the cold weather. Favoured by the length of this season they flourished exceedingly but showed signs of distress when the hot weather arrived. Although in many parts of Bengal it can be grown well, the rose is a plant somewhat exacting in the conditions it demands for success. One sees very few of the species in Calcutta itself although as near to it as Barrackpore roses can be grown to great heauty and in variety. The Howrah side and Sibpur along with it unfortunately takes after the parent city in this respect and is in general unsuited to their cultivation.

Besides the usual routine work directed to keep the garden in a fit state certain other works towards the maintenance of garden accessories have been carried out. No less than 20,280 sq. yds, of road, subject to the incessant traffic of modern rubber wheeled vehicles, have had to be repaired. Repairs comprised the whole of the Hamilton Avenue,

the College gate front, the Wallick Avenue from College gate to the probationers quarters, parts of the Falconer and Runburgh Avenues and the complete length of the Palmyra Avenue. In addition the Kyd monument and certain other garden structures were overhauled.

Reference has been made in recent reports to the state of the great Banyan tree. The decay that has set in, probably senile in the first place, has now become pronounced through the attacks of a virulent lungoid growth. It soon became evident that nothing would save the central column and that the only method of prolonging the life of the radial parts was to operate. At the time of writing the central portion has been completely removed and the decaying branches severed at points shead of the disease. The intention is, as soon as the rains break, to transplant as large a stock as possible into the vacant space and when this gets established to graft it to the old plant. Owing to the great age and magnitude of the branches success will be doubtful but nothing short of this drastic treatment now offers any chance for the tree. Although conditions are bad at its centre, the Banyan shows no signs of this externally, and in respect of symmetry the number of nerial roots fixed in the ground and area covered must still remain the finest specimen of its kind in existence.

2. Plant and seed exchange.—Interchange of plants and seeds with other Botanical, Agricultural and Forestry Departments and with private individuals has been well maintained throughout the year. Some 17,654 plants were distributed, of which 9,100 were trees for road side and other planting, 3,851 were shrubs and 4,438 palms and surplus annuals. The balance was made up of climbers, bamboos, ferns and orchids. As is usual many of these went to Government institutions, District Boards, railways and municipalities.

In order that the plants collected by Mr. Kingdom Ward during his visit to Tibet and the Brahmaputra gorge might not have to suffer by any excessive delay in getting conditions for their growth, six large wardian cases for despatch to England—were prepared in anticipation of his arrival. Into these went the wonderful collection of bulbs, rhododendrons and magnolia cuttings brought back. Besides a few plants brought—back for the garden Mr. Kingdom Ward handed over a number so much the worst for the long journey they had night that they would never have travelled to England alive. They were immediately aftended to, but it is too early yet to say whether the journey, they have already had combined with the great change in their surroundings may not prove too much for them.

In the general receipt side is to be recorded a collection of some 1,482 plants, many of them orchids. Parkets to the number 286 and 28 lbs. of seeds were distributed and 127 packets received.

of second assistant for systematic work and the absence on sick leave of second assistant for systematic work and the absence on sick leave of the officiating Curator of the Herbarium has resulted in much of the work in this department devolving on Mr. Narayanaswami. With one officer only to do the duties of three it was impossible to attempt anything beyond general routine work. The plants already incorporated were reasonably well maintained and a praiseworthy attempt on Mr. Narayanaswami's part made to incorporate the thousands of sheets lying outside their proper cabinets. The result attained is commensurate with the labour this has involved. The herbarium looks much the cleaner for the arrangement made and there is now room to work without tear of having one's material mixed with loose collections and sheets lying about. In the aggregate some 11,000 sheets were incorporated. These include collections from all over India and Burma as well as certain foreign representatives from Afrika, America and China. The most noteworthy additions are Mr. Narayanaswami's own collections from the Rampa country. Mr. Fischer's Madras Presidency plants, the writer's and Mr. Ramaswami's South Indian collections and representative collections made by Forest officers and others in Burma.

Identifications of current consignments were made on behalf of the numerous correspondents who continue to take advantage of the facilities afforded by Sibpur for such works,

Distributions include a large collection of Indian and Malayan duplicates to help build up an herbarium in the Botanical Department of the University of Allahabad. Small cases of Eastern Himalayan material collected by the writer and garden material collected by Mr. Narayanaswami were sent for the use of Edinburgh and Abardeen Universities in connection with the botanical training of Forestry students.

The library is now tree of arrears of debt and a normal number of additions has been made to it.

- 4. Publications.—No purely garden publications appeared during the year, but the distribution of Part II of Vol. XII of the Annals of the garden, as well as the Appendix to Vol. XI was completed so far as the national affairs in certain countries would allow. The work left at his death by Signor Beccari is being brought together by Professor Martelli and a promise has been given that, so far as funds permit, the cost of publication of the plates necessary to illustrate the volume will be met. A list of Indian species of plant not appearing in Hookers Flora of British India—a compilation started as a library work and continued as a work of the Botanical Survey—is ready and about to go to Press.
- 5. Financial.—Out of a total budget allotment of Rs. 1,07,038 Rs. 1,06,461-15-2 were spent. There was a saving of Rs. 5,256-7-10 mainly under "Subordinate garden staff" and "Clerical establishment", but this is almost absorbed by an excess of Rs. 4,680-7 mainly due to increase in pay of the officiating Curator of the Herbarium and inclusion of leave allowance of the Curator of the Garden. The grant of Rs. 29,468 for temporary establishment was spent in full as was also the allowance of Rs. 14,000 for contract contingencies.
- 6. Staff.—Lieutenant-Colonel A. T. Gage, C.L.E., 1.M.S., was on leave throughout the year, during which time the writer officiated as Superintendent. Up till the 13th October 1924 Mr. P. M. Debbarman officiated as Curator of the Herbarium. From this date till the end of the year he was absent on leave through sickness. His place was taken by Mr. V. Narayanaswami who continued to act as Curator of the Herbarium in addition to his own duties till the end of the year. Mr. W. V. North was Curator of the Garden from the 1st April till the 23rd May and again from the 24th January till the end of the year. During the early part of his absence on leave Mr. S. N. Bose officiated as Curator; thereafter Mr. N. Mitra took charge. The post of Assistant Curator was held first by Mr. S. N. Basu and afterwards while this officer acted, by Mr. Merlin Jones. Mr. Safdar Khan acted as Overseer from the 1st October 1924 till the 19th January 1925. The Head Clerk, Bubu S. K. Mitra was on leave from the 1st April till the 1st May 1924, Babu A. T. Banerji, seventh clerk, being selected to perform the duties of Head Clerk during this officer's leave, All officers and the clerical staff have given satisfaction in the performance of their duties.

CALCUTTA CARDENS.

Apart from routine work in these gardens there devolved on the staff the duty of repairing the extensive damage done to the Eden Gardens, while it was temporarily occupied by the Calcutta Exhibition authorities. In the course of erection of structures for this exhibition numbers of plants were damaged and some had to be removed altogether. The ride was left without a blade of grass on it; the Canna garden, from which all collections had been removed to avoid destruction, presented a desolute appearance and the garden throughout was strewn with bricks, concrete foundations and the usual debris that such an event leaves in its wake. As other funds were not made available, it was inexitable that the budget allotment should first be directed towards repairs and, if during the first half of the year complaints as to the condition of the garden were freely made public in the Press, it was beyond the power of the staff to bring it to a presentable condition earlier and at the same time retain enough money in hand to meet inevitable expenditure in the last months of the year. With the help of a Ford Tractor kindly loaned by the Company supplying these the ride was brought back to condition and returfed, the Canna garden was replanted and rubbish having been removed, casualties in the permanent collections made good. Although there are still evidences of the exhibition in relies of broken tocsonry, dismantled seats and gaping breaches in a few hedges the garden is well back to its former condition and has now regained the popularity it previously had as a place of resort for the Calcutta public.

New accessions to the Eden Garden include a collection of hybrid Dahlia bulbs received from Europe.

In the other Calcutta gardens the year's work was mostly of a routime character. As elsewhere, cold weather annuals were late but several beds in the Curson Gardens eventually repaid the trouble taken over them and were much admired by the passing public. To Means. Mitra.

Basu, Quasem Ali and Safdur Khan, the officers in charge, are due thanks for the manner in which they carried out repairs and brought the gardens back to condition.

Of the full budget allotment of Rs. 29,486, Rs. 28,876-6 were spent. There was an excess of Rs. 1089 in the grant for garden staff, but this is more than set off by a saving of Rs. 716-2 on the pay of Assistant Curator: The net saving was Rs. 615-10.

LLOYD BOTANIC CARDEN, DARJEELING.

The rainfall for the year was 120:38 inches being slightly in defect although rain commenced early the 11th April and continued till late—the 23rd October. The fall in this interval was well distributed as is shown by the number of days, 45 only, in which no measureable amount was recorded. The cold season, the dullest and most severe recorded for many years, was responsible for a certain amount of damage to both exotic and indigenous plants in the permanently planted-out collections, while certain plants in the local forests also felt its effects. Amongst exotics the following were the chief sufferers—Centrum aurantiacum and other species, Justiaen peruviana Fuchsia macrostemma and other species and Doryanthes Palmeri and of indigenous plants from levels lower than Darjeeling the following—Luculia gratissima, Cassia leviguta, Solunum verbascifolium, Saurauja fasciculata, Musa nepalensis and Curculigo recurvata. All these species are ordinarily quite hardy in Darjeeling.

As a consequence of the efforts made during the past two years to bring the garden paths and structures into good condition and the strict economy practised with regard to labour during the year, it has been found possible to carry out a few improvements during the past cold season. Certain decrying wooden railings have been replaced by iron fencing, the steepest of the paths,—difficult to maintain, if metalled—have been paved with stone blocks, revetment walls have been erected and an effort, more prolonged and determined than usual, has been made to rid the lawns and plants of moss. Some 78 species of plants new to the garden were planted out in the permanent collections during the year and a few examples which had become old, decrepit or dangiged by storms were replaced.

In addition to garden work proper distribution of local seeds and plants has been carried out as in previous years.

In this Garden there was a saving of Rs. 98-7-7, mostly under rents, rates and taxes, out of a total budget allotment of Rs. 20,944.

The high standard of Mr. Cave's work in all directions has been so frequently referred to in these reports that it is, perhaps, unnecessary to comment on it further. Suffice it to say, therefore, that in the present year of his service this standard has been simply maintained.

C. C. CALDER,

Superintendent, Royal Botanic Garden, Calcutta.

Summary.—The rainfall during the week continued light to moderate, the fall being heavy in parts of Dinajpur, Darjeeling, Dacca, Mymensingh and Tippera districts. Harvesting of autumn paddy is almost completed. Transplantation of winter paddy is nearing completion. Cutting, steeping and washing of jute are in full swing. The condition and prospects of the standing crops are fairly good. The price of common rice for the province has risen by about 0.42 per cent, as compared with that of the province week. the previous week.

STATEMENT OF OLIMITS AND REASONS.

The Indian Factories Act, 1981 (XII of 1911), "insteading the adoption of a sixty hours" which introduced a series of imperious reforms indiagnal as adoption of a sixty hours" work, the raising of the minimum age of children from 9 to 12, the prohibition of night work for women, the extension of the Act to a large number of small factories, drastic restriction of the exempting provisions, etc. The experience of the last three years indicates that the amended Act has worked smoothly by the whole, and the main principles followed in 1922 command general acceptance." The Government of India do not propose to modify any of the main principles of the Act.

2. But administrative difficulties have arisen in connection with some sections of the Act; one such difficulty relates to section 21 which provides for intervals of rest. In practice it has proved difficult to enforce the provisions of this section in some industries. Local Governments were asked in June 1923 to consider a possible solution of the difficulty and to bring to the notice of the Government of India any difficulties which might have arisen, in connection with other provisions. On receipt of their replies, a Conference of Chief Inspectors of Factories was convened; this met in Simla, in August 1924, and was attended by the officers at the head of the inspection staff in every province but one. The Act was examined in detail in the light of the criticisms received, and the Conference recommended a number of attentions designed by allowing greater elasticity in some directions and by increasing control in others, to make for smoother working. The amendments proposed in the Bili are based on the recommendations of that Conference and on the opinions received from Local Governments. They are explained in the detailed Notes on Clauses below.

NOTES ON CLAUSES.

glaisse 2.—There are a number of establishments such as electrical generating stations, water works, etc., which, while they are essentially factories in the ordinarity accepted sense of the term and require regulation as much as other factories do not appear to fall strictly within the definition in section 2 (3) of the Factories Act. The amendment proposed is designed to ensure the application of the Act to such factories. The amendment proposed in clauss 19 is consequential.

Clause 3.—The amendment is consequential on the repeal of Act VIII of 1901 by Act IV of 1923.

Clause 4.—Sub-section (1) of section 7 directs the certifying surgeon to give to an unfit child a certificate that he is unfit; such certificates are said to have been given and used for the purpose of employment. The amendments preclude the certifying surgeon from giving a certificate to a child who is found to be unfit for employment.

(Vantse 5.—The existing Act makes no provision for the prevention of excessive temperatures within a factory. The new section is designed to remedy this defect. The amendments proposed in clauses 17 and 22 are consequential.

Clause 6.—The amendment is of a formal character and is designed to make it clear that, where a manager of a factory has been required to provide a fan, the fan must be maintained, in use.

Clause 7.—Under the existing law, women and children are prohibited from cleaning machinery in motion. But a large number of accidents to men have occurred from the cleaning of machinery in motion. It is therefore proposed to give Local Governments power to prevent this practice, where they are satisfied that it is attended with danger to the operatives.

Clause 8.—Two difficulties have arisen in connection with section 21 (1) (a) of the Factories Act, 1911. The sub-section was designed to secure for employés a daily interval of one hour or, if they so prefer, two intervals of half an hour each, so arranged that no operative is required to work for more than five hours continuously. It is doubtful whether the section carries out the intention of the Legislature as regards the second alternative; clause (ii) may be interpreted as requiring that both the half-hour intervals, if this system is chosen, should be given before the seventh hour of work commences. The first amendment proposed is designed to carry out the original intention of the Legislature.

But the Government of India propose at the same time to make a more substantial amendment. As soon as section 21 came into effect, difficulty was experienced in enforcing it in factories which were working for appreciably shorter hours than the maximum permitted by the Act, and more particularly in engineering works. The operatives, who ander the old for half been given an interval of only half an hour found that the new Act resulted in a diminution of the hours which they were able to spend at their homes. And where, as in many cases, their homes were situated at a considerable distance from their work, their distince of the new provision was correspondingly increased. The Government of India referred the whole question for detailed consideration to Local Governments and the replies showed a general consenses of opinion in favour of an

amendment of the section. The proposal new just forward is based on the recommendation of the Factory Inductions. Conference. If it is passed into inw, it will be possible for local Governments to permit the reduction of intervals to one interval of half as hours daily in the case of mais operatives working for not more than by hours a day, provided that the operatives themselves desire this arrangement. The Government of India are satisfied that the proposal will not be detrimental to the operatives cohorned, and they have the effect of reducing the hours of work in some factories.

Clause 9.—The existing Act prohibits the employment of women and children in more than one factory on the same day. It has been brought to the notice of the Government of India that in certain cases this provision operates to prevent women from securing adequate employment. In some factories which work for only a few hours each day, it was formerly the custom for women to do a flew hours' work in one factory and then to proceed to a neighbouring factory to complete their day. Provided that the weekly and daily limits placed by the Act on hours of work are not exceeded, there is no reason why this practice should be prevented; and where, as in the case of the factories in question, the **hours of** opening and closing of the factories are simultaneous, there is no risk of abuse in a relaxation of the existing provision. The relaxation will only be effective when the sanction of the Local Government has been obtained, and it is contemplated that this sanction will only be given to the employment of women within specified hours, so arranged that it is not possible for a woman to work outside the limits provided by sections 24 and 27.

Clause 10.—A number of minor modifications are proposed in section 30 of Act XII of 1911. As the section at present stands it is not possible for Local Governments granting exemption to limit the exemption to particular areas and, if an exemption proves necessary in a particular part of the province, they are compelled to grant an exemption applicable throughout the province. Amondment (b) is designed to remedy this defect.

In the case of person engaged in preparatory or complementary work, it is frequently necessary that the provision relating to intervals should be abrogated and, where work is essentially intermittent, the workers, although they enjoy as a rule long intervals of rest, cannot always be given them at specified hours. It is proposed therefore in amendments (c) and (d) to give the Local Government power to grant exemptions from section 21 of the Factories Act.

A number of factories in which continuous production is necessary for technical reasons work upon a shift system and, with such a system, it is not always possible to --secure that on no day of the week shall the hours of work exceed eleven. It is proposed therefore in amendment (c) to give the Local Government power to grant exemption from section 28 of the Factories Act.

No exemptions are at present possible from section 26 of the Factories Act, which requires the manager to fix beforehand specified hours for the employment of each person employed. But it is not possible in a number of cases for the manager of a factory to comply with this provision. Where work depends on the irregular action of natural forces, it is obviously impossible for the manager to predict beforehand the hours at which the operatives will commence work. Much the same difficulty arises in the case of work which is assentially intermittent. It is proposed therefore by amendments (a), (d) and (f) to permit the Local Government to grant exemptions from the provisions of section 26 of the Factories Act. The exemptions will in all cases be subject to any conditions which the Local Government may consider necessary for the purpose of ensuring that the provisions of the Act limiting hours of work are not contravened.

Chause 11.—The existing Act provides that where persons, by virtue of an exemption ranted under section 30 (1), are permitted to work for more than 60 hours in a week, they are entitled to overtime at the rate of at least 11 times the normal rate of wages, There is no resistan why this provision should not apply equally to exemptions granted under section 30 (2).

Clause 12 .- It is frequently necessary that the persons employed in the engine-room or boiler-house of a factory should attend on the weekly holiday, and the new section 31 A is designed to meet this need.

The existing section 24 (a) prohibits the employment of women in factories before 5-30 A.M. and after 7 P.M. This provision has proved prejudicial to the working of fish. ouring and canning factories. It is essential in such cases that work should commence as soon as the material is available, and this was recognized in the International Convention relating to the employment of women by night, which has been ratified by India. The Pactories Act, however, contains no provision for the purpose and the new section 31B is designed to supply the deficiency,

Clause 14.—Difficulties have arisen in enforcing the Act where no person has been officially designated as manager of the factory. This difficulty has been especially felt in Burms in the case of factories owned by Chinese proprietors who cannot easily be traced. The person managing she dectory cannot be proscouted for an infringement of the law unless he has acquelly been designated as manager. The amendment proposed is designed to make it possible for responsibility to be brought home to the person actually managing the factory.

Change 14.—As section 34 of the Factories Act stands at present, it does not enable the inspection of the Local Government to receive nettion of dangerous accidents, which do not actually result in death or a hadily injury. For example, if part of a factory collapses when no one is working in it, so that no casualties result no report need be made, and the necessity of enforcing more stringent precautions may thus be overlooked. It is therefore proposed to insert a provision giving Local Governments power to require notices of accidents of any special class of explosion, fire, collapse of buildings, accidents to machinery or plant, etc., which they may specify.

Clause 15.—Section 35 of the Factories Act, which is supplementary to section 26, has given rise to considerable difficulty in administration. It requires the manager to maintain a register of all persons employed and of their hours of work, and these hours must necessarily be specified beforehand. As has been indicated in the note on clause 10, it is not always possible for the manager to predict the exact hours within which each person shall be employed, and it is therefore proposed to give the Local Government power to dispense with the necessity of the register in certain cases. It is intended that this power should only be used where the total hours worked by the factory are such that it is impossible for any adult to work for hours longer than those permitted by the Act, and provided that this condition is observed, there is no danger of any infringement of the limits which the Act imposes upon hours of work. It would not be possible to prevent abuses arising in connection with the employment of children if a similar exemption were granted in their case. It is proposed therefore that the exemption should only be possible in the case of adults.

In a number of factories, elaborate muster-rolls are maintained, which give all the necessary particulars but which are not necessarily in the form prescribed by the Locat Government. It is proposed to grant the inspector power to permit the substitution of

these muster-rolls for the register prescribed under the Act..

Clause 16.—Under section 36 of the Factories Act, notices must be displayed, giving the standing orders of the factory relating to hours of work, rest intervals and holidays, and alterations in these notices must; be sent to the inspector within seven days. At present, an inspector who visits the factory and finds that the standing orders are being contravened may be informed that the change has been made a few days before his visit to the factory, and it is difficult for him to check the accuracy of this statement. There is no reason why changes in the hours of work should not be notified to the inspector as soon as they are made, and the amendment will, it is hoped, place the inspecting staff in a position to exercise more effective control than is possible at present.

Clause 18.—Considerable difficulty has been experienced in preventing the employment of children in two factories on the same day. It is seldom possible to prove that either manager is aware that the child is working in another factory and in many cases the manager may have no such knowledge. On the other hand, it is almost universally the case that such employment is obtained under compulsion from or on the instigation of the parent or guardian of the child. It is believed that, if it were possible to panish the parent or guardian for what is essentially a gross dereliction of his duty to the child, the hands of those who are endeavouring to stamp out the abuse would be considerably strengthened. The proposed section is an adaptation of section 138 (1) of the British Factory and Workshop Act, 1901.

Clause 20.—The new clause is designed to enable inspectors to conduct prosecutions under the Factories Act.

Clause 21.—Section 33 of the Factories Act provides that persons occupying factories should send a written notice to the inspector on or before the date on which the factory commences work. Section 49 prevents prosecution for any offence unless complaint has been made within six months of the date of the alleged offence. If follows that, if a factory has worked for more than six months without being directored, the occupier cannot be prosecuted for failure to inform the inspector of the opening of the factory. The amendment is designed with a view to rectifying this defect.

Legislative Department.

The following Bill was introduced in the Legislative Assembly on the 27th August 1925 -

No. 39 of 1925.

A Bill further to amend the Code of Oriminal Procedure, 1898.

WHEREAS it is expedient further to amend the Code of V of 1898. Criminal Procedure, 1898, for the purposes hereinafter appearing; It is hereby enacted as follows:-

Short title.

1. This Act may be called the Code of Criminal, Procedure (Amendment) Act, 1925.

Amendment of section 128; Act V of 1898.

- 2. In sub-section (6) of section 123 of the Code of V of 1898 Criminal Procedure, 1898 (hereinafter referred to as the said Code),-
 - (a) the words and figures "or section 109" shall be omitted; and
 - (b) before the word and figures "section 110" the words and figures "section 109 or " shall be inserted.

5. Sub-section (4) of section 170 of the said Code is hereby repealed.

4. In provise (b) to section 200 of the said Gode, after the words "thinks fit, and" the words "where the com-Splaint is made in writing " shall be inserted.

For the provise to sub-section (1) of section 202 of the said Code the following provise shall be substituted, namely :-

"Provided that, save where the complaint has been made by a Court, no such direction shall be made upless the complainant has been examined on oath under the provisions of section 200." Amendment of section 298, Act V

In section 203 of the mid Code, for the words "any investigation" the words "the investigation" shall be anbetituted; and after the word "inquiry" the words and and brackets "(if any) "shall be inserted.

Amendment of section 475, Act V of 1898.

- 7. In sub-section (1) of section 476 of the said Code,-
 - (a) to the first paragraph the following proviso shall be added, namely :-
 - "Provided that, where the Court making the complaint is a High Court, the complaint may be signed by such officer of the Court as the Court may appoint"; and
 - (b) in the second paragraph the word "Chief" shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

Since the Code of Criminal Procedure, 1898, was amended by Acts XII and XVIII of 1923, certain difficulties have been brought to light by Local Governments and judicial authorities. These have been examined by the Government of India, and the Bill has been prepared with the object of making such amendments in the law as appear to them to be desirable. The reasons for the amendments are explained in the notes on clauses below:—

Notes on Clauses.

Clause 2.—Prior to the amendment of section 123 of the Code by section 21 (2) of Act XVIII of 1923, Courts had discretion to award either simple or rigorous imprisonment in the case of proceedings under section 109. The effect of the amendment was to take away the discretion, and this clause restores it. Several Local Governments have represented that the change has worked injuriously, as most of the persons against whom proceedings are taken under section 109 are men for whom simple imprisonment is quite unsuitable.

Clause 3 deletes sub-section (4) of section 170 which provides that the day fixed under this section shall be the day whereon the accused person is to appear, if security for his appearance has been taken, or the day on which he may be expected to arrive at the Court of the Magistrate, if he is to be forwarded in custody. This provision requires, for example, that all witnesses shall be bound down to appear before the Magistrate on the date when the accuse is expected to arrive at the Court if he is forwarded in custody. It has been found to be inconvenient, and it is understood is frequently not followed in practice.

Clause 4.—At present a Presidency Magistrate need not record the substance of an examination even if the complaint is not in writing. It is desirable that where there is no complaint in writing the Magistrate should record the examination in writing.

Clause 5.—Under section 202 of the Code of Criminal Procedure a Magistrate receiving a complaint may not direct an inquiry or investigation by any Magistrate subordinate to kim or by a police officer if the complaint has been made by a Court. This has caused difficulties in the case of a Court complaining under section 476 of the Code. Under that section the Court has only to record a finding that it is expedient that an inquiry should be made into an offence which appears to have been committed, and it seems clear that cases will arise in which an inquiry or investigation should be made before a person is put on his triat. The difficulty was brought to light by the Bombay High Court and the Local Governments and other High Courts have all agreed that some provision is required. This clause gives effect to the proposal.

Clause 6.—The Calcutta High Court in a recent decision (in the case of Srish Chandra, Bose versus Madan Lall Surena and others) has held that under section 203 an investigation or an inquiry under section 202 is necessary in all cases, because the words "if any" have been omitted from section 203 after the words "investigation or inquiry". No such change was intended by the amendment made by Act XVIII of 1923, and the proposed addition is to make this matter clear.

Clause 7.—The labore High Court has represented that it is a needless waste of sine of the Judges of a High Court that they should be required to sign all complaints under section 476. The proposed change in sub-clause (a) enables any officer of such a Court whom the Court may appoint to sign the complaint. Sub clause (b) proposes to make all Presidency Magistrates, Magistrates of the first class for the purpose of section 476 (1). At present if a Chief Presidency Magistrate wishes to take action it is necessary for him to send the case to a first class Magistrate outside the Presidency town because the other Presidency Magistrates are not first class Magistrates for the purposes of this section.

MODELATIVE DEPARTMENT.

The following Bill was introduced in the Conneil of State on the 1st September 1925:-

No. 9 of 1925.

A Bill to amend the Interest Act.

WHEREAS it is expedient to limit the interest charged on loans of various kinds in British India; It is hereby enacted as follows:—

Short title, commencement and extent.

- 1. (1) This Act may be called the Amendment of the Law relating to Interest Act, 192.
 - (2) It shall come into force on
 - (3) It shall extend to the whole of British India.

Repeals

2. Provisions of other laws and regulations, so far as they are inconsistent with the provisions of this Act, are hereby repealed.

Interest not to exceed amount of principal debt.

5. No creditor, whether of a secured or unsecured of loan, shall be entitled to recover by suit interest exceeding the principal amount originally lent or due at the date of suit whichever is less.

Act not to apply to usufrustuary morrgages 4. This Act will not apply to usufructuary mortgages.

STATEMENT OF OBJECTS AND REASONS.

The Bill is designed to prevent the accumulation of interest for long periods, and thereby save many a debtor from utter guination by his calculating and clever creditors.

There is similar rule in Hindu Law and it is called the Rule of Damdoopat. It is in operation in the Bombay Presidency and Berar. It is made applicable in cases in which the debtors are Hindus, while in the town of Calcutta, it is applied in cases where both the plaintiffs and defendants are Hindus.

The operation of this rule on the lines obtaining in the Bombay Presidency and Berar entails a great hardship upon those who are non-Hindus because if they are creditors they cannot recover interest more than the principal amount due on the date of the suit, and if debtors they are denied the benefit of this rule altogether and they are made to pay interest irrespective of its being more than the principal amount due on the date of the suit.

This rule is a very wholesome one if it were made applicable to all alike. It is so done in many of the Native States even to this day.

Owing to its non-existence in other parts of British India, the Hindus and non-Hindus are alike falling victims to the Wait and Have It game of their scheming creditors who allow the interest to accumulate to such an extent that it become impossible for the deptors to pay up the amount, and they are ultimately deprived of their bearths and homes.

The effect of this amendment would no doubt be that the creditors will sue their dektors as soon as the amount of interest is equal to the principal amount, and even this procedure is beneficial to the debtors because at present sentiment prevents debtors to part with part of their property and pay off their debts and so they go ton allowing the interest to be accumulated in the hope of clearing their debts in years of plenty and prosperity but they are unable to do not and the Sahookar allows them time till the interest with principal swells up to the value of the property in suit or with them and at once rushes into Court and takes everything from them in lieu of his money. But if the Sahookar were to bring his suit sconer, the debtor would be getting a chance of laying aside his sentimentalism, sell part of his property, pay off his debt and save the remainder of his property for himself and his family.

The Interest Acres 16.19 (Act EXXII) and George Repeats Act of 1855 (XXVIII) which are absolutely inconsistent with took the Hindu and Enhanmendan Laws on the subject were passed at a time when these warms Indian representative in the Council and have brought rule on large number of possible.

The Usurious Loans Act of 1918, although gives power to Jourts to curtail the rate of interest when they consider it excessive, yet provides no remedy to stop accumulation beyond a certain limit. ('areless borrowers who allow unlimited accumulation and inflict ruin on their descendants stand in great need of protection.

-----	--	--------	---	-----------	------------------------------	---	--

STATEMENT OF OBJECTS AND REASONS.

In paragraph 91 of their report, the Reforms Inquiry Committee recommended that the corrupt influencing of votes of members of the legislatures by bribery, intimidation and the like should be made penal offences under the ordinary criminal law, and paragraph 124 indicates that this recommendation was the manimous recommendation of the Committee as a whole. The tender of a bribe to, or the receiving of a bribe by, a member of a legislature in India as an inducement for him to act in a particular manner as a member of the legislature is not at present an offence. On the other hand the intimidation of a member for this purpose which was also mentioned by the Committee is already an offence under sections 503, 506 and 507 of the Indian Penal Code.

The Bill proposes to penalise-

(!) the effecting of a bribe to a member of a legislature in connection with his functions as such; and

(2) the receipt or demand by a member of a legislature of a bribe in connection with his functions as such.

The definition adopted for the effence follows that in section 17tB of the Code in regard to the objects of bribing a veter at an election, and in order to present vexations prosecutions the effence has been included in section 196 of the Code of Criminal Property.

In section 138 of the said Act as in force in areas in which the Bengal Village Self-Government Act, 1919, is not in force, for clause (a) Ben, Act the following shall be substituted, namely:---

STATEMENT OF OBJECTS AND REASONS.

A great waste of time, labour and money is involved in the preparation of separate lists of voters for the Legislative Council, Local Boards and Union Boards. Separate lists are flecessary because of the differences be

It is not within the power of the local legislature to alter the franchise for the Legislative Council so as to make it coincide with that of local

bodies. It is not feasible to require a higher franchise for local bodies since the result would be that some voters would thereby be disfranchised. It is, however, possible to make the franchise uniform for Local Boards and Union Boards. One step will thereby be taken towards elimination of labour in the preparation of electoral rolls. In areas in which Union Boards have been established, the Union Board and Local Board franchises are already identical. This was brought about by the Bengal Village Self-Government Act, 1919, which substituted by item 4 of the amendments to the Bengal Local Self-Government Act of 1885 in Schedule 1 to the Bengal Village Self Government Act, 1919, a new section for section 9 of the Bengal Local Self-Government Act of 1885. Since this change, in such areas, which may be termed "Union Board areas", the possession of a clear annual income of Rs. 240 and the educational qualification no longer qualify persons to vote at Local Board elections, while the payment of cess of Re. 1 qualifies in place of the payment of Rs. 2 which was previously necessary.

This Bill is intended to make the franchise of Local Boards in areas in which Union Boards have not been established the same as in Union Board areas. Where Union Boards have not been established the old franchise as laid down in section 9 of the Bengal Local Self-Government

Act of 1885 is still in force.

As Union Boards are more widely established, this difference in franchise will automatically tend to disappear; the present Bill will merely accelerate the process. Labour and money in the preparation of voters lists will be saved by rendering the Local Board and Union Board franchise uniform.

REPORT OF THE SELECT COMMITTEE ON THE BENGAL LOCAL BELF.

We, the undersigned members of the Bellier Committee to which the Bill further to smend the Bengal Local Self-Government Action 1885 was referred, have considered the Bill and have the honour to submit this our region.

A majority of the Committee was of opinion that

(1) the effect of the Bill must be the dissafranchisement of some portion of the present Local Board electorate; and

(2) the financial advantages of the proposals would not justify this result.

The Committee, therefore, recommend that the Bill be not further proceeded with,

No. 3180 L., dated Calcutta, the 11th December, 1925.—The following Bill was introduced in the Bengal Legislative Council on the 4th December, 1925, and is hereby published for general information, together with Statement of Objects and Reasons annexed thereto:—

THE BENGAL FOOD ADULTERATION (AMENDMENT) BILL, 1925.

BILL

to amend the Bengal Food Adulteration Act, 1919.

Whereas it is expedient to amend the Bengal Food Adulteration Act. 1919, in the manner hereinafter appearing:

It is hereby enacted as follows:-

*1. This Act may be called the Bengul Food Adulteration (Amendment) Act, 1925.

2. After section 15 of the Bengal Food Adulteration Act, 1919, the following shall be added, namely:---

"Provided that in the case of an offence committed within a municipality such order or consent shall be valid if made or given by the Chairman of the Commissioners of the Municipality."

Short title.

Amendment of Section 15 of Bengal Act VI

STATEMENT OF PRESENTS AND REASONS.

Section 15 of Act VI of 1919 does not authorize the Chairman of a local authority to exercise powers on its behalf by sanctioning prosecutions for offences under the Act. Each such prosecution requires the order or consent in writing of the local authority concerned. Local authorities ordinarily most monthly or even less often, and inconvenience is often caused by the accessity of obtaining their sanction to every prosecution instituted under Act VI of 1919. The Howrah Municipality has recently moved Government to amend the Bengal Food Adulteration Act so as to empower the Chairman to sanction prosecutions thereunder, and the present Bill is the outcome of that application. It is proposed to empower only the Chairman of municipalities to exercise the powers of the Commissioners under section 15 of the Act, since prosecutions under this Act will rarely be instituted by other local authorities.

THE BENGAL PHUKA BILL, 1925.

BILL

to prevent the practice of plinks on milch animals.

Preamble.

Whereas it is expedient to make further provision for the prevention of the practice of phuka on milch animals:

And whereas the previous sanction of the Governor General has been obtained under sub-section (3) of section 80A of the Government of India Act to the 7 Geo. V. c. 61; 6 & 7 Geo. V. c. 87; 9 & 10 Geo. V. c. 101.

It is hereby enacted as follows:-

(1) This Act may be called the Bengal Phuka Short title and local extent. Act, 1925.

- (2) It extends in the first instance only to-
 - (a) Calcutta as defined in clause (11) of section 3 of the Calcutta Municipal Act, Hon. 111 ob 1923 1923,
 - (b) the port of Calcutta, and
 - (c) the Howrah Municipality.
- (3) The Local Government may, by notification in the Calcutta Gazette, extend this Act to any place defined in such notification.

Definition

2. In this Act "phuka" means any unnatural process of blowing or inserting air or any other substance in the vagina of any milch animal with the intention of thereby drawing off from the animal any secretion of milk.

Power of arrest

3. Any person specially authorised by the Local Government in this behalf who has reason to believe that an offence against section 6 is being committed in respect of any milch animal, may at any time either by day or by night enter any cattle shed or any place where milch animals are kept and may arrest withour a warrant any person found by him practis-ing the operation called phuka on any milch animal.

8. All fines paid or collected under the provisions of this Act shall be kept as a separate fund and paid at the discretion of the Local Government towards the upkeep and support of any officers appointed under the provisions of sections 3 and 4.

Repeat of section 5A of Bec. Act for 1869

9. Section 5A of the Bengal Cruelty to Animals Ben, Act 1 Act, 1869, as amended by the Bengal Cruelty to of 1869, Ben, Act Animals Act, 1900, is hereby repealed in areas to ulfor 1900. which this Act extends.

STATEMENT OF OBJECTS AND REASONS.

The Bill is intended to stop the practice of phuka by providing for closer supervision of such cases and by imposing more deterrent punishment. The Bongal Cruelty to Animals Act, 1920 (Ben. Act 1 of 1920) did introduce some wholesome provisions against the practice of phuka but that Act has not up to now, been enforced; the introduction of this Bill has therefore become necessary. This annatural and eruel process on cows is being practised daily in about 1,000 cattle sheds in Calcutta and the suburbs alone; some such measures are, therefore, required for the prevention of so pernicions a practice, thereby saving useful cattle, mostly milch cows, which owing to such ravages, are rendered sterite and unserviceable for the future, which causes the eventual diminution of milk and milk products.

39. In case of non-payment, the fine may be realised by any of the processes laid down in the Code V of 1896, of Criminal Procedure, 1898, and the amount of compensation ordered under section 38 shall on realisation be paid to the village Board or to the local authority, as the case may be.

Rules

- 40. (1) The Local Government may make rules to carry out the purposes of this Act.
- (2) In particular and without prejudice to the generality of the foregoing power such rules may prescribe—
 - (1) the form of keeping accounts;
 - (2) the form of receipts to be granted to payoes; and
 - the form in which the extent, situation and boundaries, etc., of pasture lands are to be kept.

STATEMENT OF OBJECTS AND REASONS.

The Bill intends to secure the right of pasturage in lands formerly used as such but since encroached for cultivation or otherwise. The need for such a measure will be apparent on reading cattle census reports and settlement reports of various provinces which complain of the serious want of pasturage and encroachment of land for cultivation. Similarly one of the causes ascribed for the deterioration of cattle of this country has been the gross inadequacy of pasture land which is also considered to be a circumstance adverse to cattle breeding. The grazing that exist in this country now are very poor both in quality and in quantity. The proportion of grazing lands to the total land area of India is the minimum of all the countries being 1: 27, whereas the proportion in Japan is 1: 6, in Germany 1: 6, in New Zealand 1: 3. The great shortage of pasture land will also be apparent from a comparison of the number of acres that is available for grazing per head of cattle in different countries. It is only 17 in Bengal and a little more in other provinces in India, 1:6 in the United States of America, 1:35 in New Zealand and 1:44 in Germany.

(Clause 5.)

the relationship of landlord and tenant has coased subsequently to the application, but an application by a tenant under this section shall be dismissed when the Controller finds that the applicant has omitted to pay to his landlord or to deposit with the Controller the rent payable by him under sub-section (5) of section 11.

Insertion of new section 27

- 5. After section 26 of the said Act the following shall be inserted, namely:—
 - "27. Notwithstanding anything contained in sub-section (2) of

Jurisdiction of the Controller and the President of the Tribunal in cortain cases.

Section 2 of the Calcutta Rent

Calcutta Rent Ben. Act (Amendment) Act, 1 of 1924, the President of

1924, the Controller and the President of the Tribunal shall continue to exercise the jurisdiction conferred on them, respectively, by this Act, in all-cases pending before them on the 31st day of March, 1924, relating to premises the rent of which exceeded two hundred and fifty rupees a month on the first day of November, 1918, and they shall for this-purpose grant all applications for the restoration of any such cases that may have been dismissed since the 31st day of March, 1924, if such applications are presented to them within three months from the commencement of the Calcutta Rent (Amendment No. II) Act, 1925."

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to rectify some anomalies of the Calcutta Rent Act, 1920, and to remove some ambiguities in its wording which have led the President of the Tribunal and the High Court to interpret some of the sections in a way that has to a great extent been prejudicial to the objects of the Act itself.

At the time of the introduction of the Calcutta Rent (Amendment) Bill of 1924 in the January session of the Bengal Legislative Council by which the operation of the Act in respect of premises the rent of which did not exceed Rs. 250 in November 1918 was extended till the end of March 1927, the mover undertook to bring in a Bill later on to remove the defects of the Act. The principal amendments have been necessitated by the following circumstances:——

- (a) The President of the Tribunal held that when part of a building is separately let for the first time it is a case of "first letting" within the meaning of section 2 (f) (ii). This has, however, been held by the High Court to be wrong in the case Roberro rs. Jacob reported in 27 C.W.N., p. 569.
- (b) In the case of Wells rs. Dickinson reported in 28 C.W.N., p. 774, Mr. Justice Buckland held that when a house is let furnished the Controller or the Court cannot interfere with the amount which the parties fixed as rent because it includes the hire of furniture which is not rent payable for the premises as defined in section 2 (c).
- (c) Again in the case of Bladchand rs. Grace reported in 26 C.W.N., p. 678, Mr. Justice Buckland held that a tenant who had once made default in paying his rent was for ever deprived of the benefits of the Act by reason of section 11 (5) although the rent had been subsequently paid and the landlord had accepted it.
- (d) In many cases landlords have abused the provisions of the provisor to section II (1) and obtained decrees for ejectment on the pretext of requiring premises for their own occupation or for rebuilding. In the case of R. M. Chatterjee rs. D. O. C. Ryan the High Court has held that the Court cannot question the landlord's bona fides if he simply produces an Engineer's certificate that the house requires to be rebuilt.

These interpretations of the various sections have enabled middlemen, profiteers and unscrupulous landlords to evade the provisions of the Act.

Doubts have also arisen as to the jurisdiction of the Controller and the President of the Tribunal in respect of premises which have been excluded from the operation of the Act by the Calcutta Rent (Amendment) Act, 1924 (Bengal Act. I of 1924).

The present Bill aims at removing these defects and anomalies.

 - (2) "fry" means the offspring of fish which live in sheals during the months of Baisakh, Jaistha and Asharh; and
 - (3) " private waters" means ponds tanks, wells-
 - (q) which are the exclusive property of any person, or
 - (b) in which any person has an exclusive right of fishery and in which fish are not confined but have means of ingress or egress.

CHAPTER II.

PREVENTION OF DESTRUCTION OF FISH FRY.

Prohibition of catching fish fry except for purposes of cultivation. 3. No person shall during the months of Baisakh to Asharh, B.S., catch fish fry for any purpose other than fish cultivation by means of any net, cage, trap or other contrivance from any navigable or silted-up river, beel, khal or other waters except private waters where fry develop, or do anything which has the effect of appreciably reducing the number of fry or of destroying them.

f'roblbition of killing, etc., fish fry. 4. No person shall kill, use or sell as an article of human consumption fish fry either privately or in any market or fair or in any other place:

Provided that the catching, selling or purchasing of fish fry for the purpose of fish cultivation or anything done accidentally, which tends to diminish or in any way affect the growth of fish fry, shall not be an offence under this Act.

Penalty.

5. Any person catching or killing fish fry, or using or selling them for any perpose other than that of fish cultivation, shall be liable to a fine which may extend to ten rupees or, in default of payment of the fine, to simple imprisonment for a period not exceeding three days.

CHAPTER III.

PROCEDURE FOR TAKING COGNIZANCE OF OFFENCES UNDER THIS ACT.

Power to arrest without warrant.

- 6. (1) Any officer-in-charge of a police-station or any person or authority anthorised by the Local Government by notification in this behalf may without warrant arrest any person committing an offence under this Act and send him for trial before any Court authorised by the Local Government by notification in the Calcutta Gazette in this behalf: provided that the name and address of the person are unknown to such officer, and that the person declines to give his name and address or there is reason to doubt the accuracy of the name and address given by such person.
- (2) No person so arrested shall be detained longer than may be necessary for bringing him before a Magistrate, except under the order of a Magistrate.

Powes to make

7. The Local Government may make rules under this Act for the punishment of offenders and for the better preservation of the fish fry.

STATEMENT OF OBJECTS AND REASONS.

Tais Bill has been introduced to put a stop to the destruction of fish fry in Bengal. Fishes are daily becoming scarce and have now-a-days become almost a luxury, and note a necessity, as they were in former days. The population of the province is gradually increasing and the supply of fish has failed to keep pace with the rapid growth of the population. In this province fish is one of the chief articles of consumption, nay—it is an indispensable article of food to the Bengalees. Beels and navigable rivers are being gradually sitted up, while new tanks are not being excavated in large numbers as before. There being no law for the preservation of fish fry, they are being destroyed wantonly. These fry, if they can be preserved, will be able to increase the supply of fish gradually, and remove one of the chief wants of the Bengalees. An Act on these lines has become an urgent necessity, and hence it is introduced.

Section 1-Gives the designation and the scope of the Act.

Section 2. clause 2.—Fish fry come into being from the month of Baisakh every year and are not developed till the month of Asharh, as they flock together till that time, and hence, for the protection of these undeveloped fry, this definition has been inserted.

Section 3.—Fish fry are caught or destroyed and are sometimes used as articles of human consumption, even in this undeveloped state. To prevent this, this section has been inserted.

Section 4.—To prevent the fish fry from being sold as an article of consumption or for trade purposes, this section has been introduced.

But selling these fish fry for fish cultivation in other-waters has been made an exception.

Section 5.—Unless some provision for punishment is made in this Act, the practice of destroying fry will not be put a stop to; to put a stop to this practice effectively provision has been made for a light punishment, i.e., to levy a fine which may not exceed Rs. 10 or in default 3 days' simple imprisonment on those committing any act towards destroying the fish, fry or reducing their number.

Section 6.—Provision has been made in this section for means of bringing the offenders to book promptly.

Section 7.—In this section, provision is made for better administration and justice.

The Local Government shall after consideration of the views of a local authority, by notification, fix the minimum number of stud-bulls to be maintained by such authority.

Power to make

- 9. (1) A local authority may, with the previous sanction of the Local Government, make rules-
 - (a) prescribing the terms and conditions for lending any stud-bull for breeding purposes to any person or persons or other local authorities:

(b) prescribing the terms and conditions of a grant under section 7:

(c) prescribing fees for services rendered by its stud-bulls and for the levy of such fees;

- the proper ap-keep, maintenance and periodical inspection and medical examination of stud-bulls; and
- (e) generally for carrying out the purposes of this Act.
- (2) Rules made under this section shall be posted up in a conspicuous position at the office of such local authority, and in such other public places as that local authority may direct.

STATEMENT OF OBJECTS AND REASONS.

The Bill intends in the main to make provision for the protection and maintenance of Brahmini bulls by local authorities. The need of adequate and suitable stud-bulls is being keenly felt in the Province. The Brahmini and Khodai bulls which helped to serve the purpose of breeding have now become scarce, and the res-nullius judgments of the Calcutta High Court reported in I. L. R. Calcutta. Vol. 17, page 852, goes to prove that the destruction and diversion to other purposes of such bulls can be carried on with impunity. There is no special provision in the Local Self-Government Acts enjoining the maintenance of stud-bulls by local bodies especially for breeding purposes. Provision has been made in this Bill for rectifying the existing defects in Legislature concerning cattle and cattle breeding.

Amon Iment of weetfan 58

18. In section 58 of the said Act, after the words "body of persons" the words "or to any individual" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The Village Self-Government Act was passed in 1919, before the reform scheme came into existence.

Now that all the chairmen of the district boards are non-officials, and some time has passed to enable the public to make observations on the working of the Act by past experience as the intention of the Government, by passing this Act, is to give to the people real self-government, it is not desirable that the district magistrate with the circle officer should nominate the members of the union boards and exercise supreme control over the union boards. It is proper to give to the people real power to govern themselves. It is necessary to give to the district boards the centrol of the union boards which now rest with the magistrate. The appointment, salary, etc., of the chaukidars and dafadars should be given to the union boards under the control of the district boards. These and other necessities require amendment of this Act.

Notes on Clauses.

Clause 2. It has been observed that in several cases local areas forming union boards have not been properly distributed with regard to the population, proximity and area. It is, therefore, necessary that there should be such power given to the district boards and also a clear provision is necessary.

Clauses 3, 12 and 15, ... It is most desirable that for "district magistrate," the "district board," should be substituted.

Clause 4.—It is very necessary that most of the poor villagers should be empowered to be voters. The present qualification of the voters, one rupee, is very high, and in the mentioned clauses of sub-section (1) of section 7 it is very necessary to reduce it.

Charges 5 and 6.—It is very desirable that an opportunity should be given to the members and president of a union toard who are removed from the office under sections 12 and 16, respectively, of the Act to explain the charges preferred against them; and to meet any charges that may have been brought against them that they should have a right of an appeal.

Clause 7.—The union rate scalined from the villagers and at present the number of chaukidars and their pay is very high; and in respect of the number and pay, etc. of Chaukidars, episions of the villagers should be highly taken into consideration. As the Government do not defray the expenses about the matter, the all-supreme power should not remain with the district magistrate. So apparently this provision is made for the encouragement of some power of the union hoard. It is also practically important for the Government to reduce the Chaukidari Tax which will remove public discontent and make the people more loyal, and also such provision was made in the Chaukidari Amendment Act. Under the circumstances it is the most desirable that there can be no question that this Act is far more important than the Chaukidari Act.

Clause 8.—It is considered that section 27 should include the removal of the plague of the water-hyacinth, and that this should be specifically mentioned in the Act

Clause 9.—The term of fifteen days is very short. So provision should be made for thirty days.

Clause 10. Public halots, which were formerly very good means of communication during the dry season and which also served as boat passages during the rains have, in many cases, been encroached upon and ploughed up.

With a view to put a stop to this practice and re-open the old halots, the aforesaid amendment is necessary

Clause 11. An amendment of section 32 has been suggested in order to provide for the engagement of the services of medical practitioners by union boards. This seems very desirable

Clause 13. - If there is no holding in the union but there is an estate or portion of the lands, this can be assessed according to the income derived therefrom. This kind of amendment has been added in section 37 of the Act

Clause 14. Provision has been made in sub-clause (1) that if a person has lands in two or three unions his assessment should not exceed forty rupees for each union and if he has lands in four or more unions his assessment should not exceed thirty rupees for each union, and in sub-clause (2) a new sub-section (2) has been proposed in section 38

Clause 16 -- Generally the poor become defaulters So a fine is not at all desirable. Hence it should be discontinued. However, a one-anna fine may be exacted out of eight annas per rupee.

Vlouse 17. Provision is made for the better encouragement for the works of sanitation, irrigation or education or the improvement of the public health

**Clause 18.— The intention of the small verbal amendment in section 55 of the Act is to make the meaning of that section more clear

TYA IMPROVEMENT

further to amend the Calcutta Improvement Act, 1911.

WHEREAS it is expedient further to amend the Ben. Act V Calcutta Improvement Act, 1911, so as to make the origin constitution of the Board of Trustees more representative:

It is bereby enacted as follows:—

This Act may be called the Calcutta Improvement (Amendment) Act. 1925.

ngal Act V

- 2. (1) In section 5 of the Calcutta Improvement Act, 1911, after the words "Chairman and" the words " one out of" shall be inserted; and
- (2) to that section the following shall be added, namely :-

"The remaining three of such persons shall be elected by the elected members of the Bengal Legislative Council."

STATEMENT OF OBJECTS AND REASONS.

The Calcutta Improvement Act was passed in 1911. It is the general *feeling that the objects of the Act have not been carried out with due regard to the needs and circumstances of the inhabitants of Calcutta. The activities of the Trust have chiefly been of a destructive character, resulting in considerable hardship upon residents and a great shortage in housing accommodation. The operations of the Improvement Trust have thus seriously affected the poorer sections of the community. The failure of the Trut to conduct its operations in a satisfactory manner has been due, in the main, to the fact that the Board, as at present constituted, is not sufficiently in touch with the views and wishes of the people of the city. It is, therefore, proposed in this Bill to amend the constitution of the Board of Trustees so as to make this body more popular than it is at present.

STATEMENT OF COLUCTS AND REACONS.

There is a real need for the registration of detectic dervants in Calcutta, not only in the interests of masters, but of the domestic servants themselves, who will thereby be given distinct advantages in whatever form of domestic service they may accept; the introduction, then, of such legislation while protecting the interests of domestic servants, will also go largely to prevent servants of doubtful character and qualifications being engaged in domestic service. In this Bill the registration of domestic servants is made optional under specified conditions, in the town of Calcutta. In Ceylon, by Ordinance No. 11 of 1865 and by Ordinance No. XVII of 1914 of the Straits Settlements, the registration of domestic servants is provided for in the towns, districts or local areas as prescribed by these Ordinances. In the Cantonments of India similar forms of registration are in vogue for the proper regulation of the conditions of service of domestic servants.

to amend the Bengal Village Self-Government Act, 1919.

Whereas it is expedient to amend the Bengal Village Self-dovernment Act, 1919 (Bengal Act V of Ben. Act V. 1919) in the manner hereinafter appearing;

It is hereby enacted as follows: -

1. 'This Act may be called the Bengal Village Self-Government (Amendment) Act, 1925.

Amondment of section 6 of Bengal Act V of 1919.

1919.

2. In sub-section (3) of section 6 of the Bengal Village Self-Government Act of 1919, hereinafter referred to as the said Act, for the words "one-third" the words "one-fifth" shall be substituted.

Amendm at of section 101,

3. In clause (a) of sub-section (2) of section 101 of the said Act, the words "voting of which shall be by bullot" shall be inserted between the words "or election" and "of members of union boards".

STATEMENT OF OBJECTS AND REASONS.

This Bill intends in the first place to increase the number of elected representatives on the union boards. This provision has been suggested for the gradual development of self-governing institutions which, it is hoped, will ultimately lead to the realisation of responsible, self-government in the country. In the second place this Bill intends to guarantee the free exercise of independent will of the voters which they under the present circumstances cannot do on account of the feur and pressure they are brought to bear.

In these Rules the following expressions have the meanings hereby assigned to them respectively, that is to say-

- (a) "Carrier" includes the owner or the charterer who enters into a contract of carriage with a shipper;
- (b) "Contract of carriage" applies only to contracts of carriage covered by a bill of lading or any similar document of title, in so far as such document relates to the carriage of goods by sea, including any bill of lading or any similar document as aforesaid issued under or pursuant to a charter party from the moment at which such bill of lading or similar document of title regulates the relations between a carrier and a holder of the same :
- (c) "Goods" includes goods, wares, merchandises and articles of every kind whatsoever, except live animals and cargo which by the contract of carriage is stated as being carried on deck and is so carried:
- (d) "Ship" means any vessel used for the carriage of goods by sea :
- (e) "Carriage of goods" covers the period from the time, when the goods are loaded on to the time when they are discharged from the ship.

ARTICLE II.

_ Risks.

Subject to the provisions of Article VP, under every contract of carriage of goods by sea the carrier, in relation to the loading, handling, stowage, carriage, custody, care, and discharge of such goods, shall be subject to the responsibilities and liabilities, and entitled to the rights and immunities hereigafter set forth.

ARTICLE III.

Responsibilities and Liabilities.

- 1. The carrier shall be bound before and at the beginning of the voyage, to exercise due diligence to-
 - (a) Make the ship seaworthy:
 - (b) Properly man, equip, and supply the ship :
 - (c) Make the holds, refrigerating and cool chambers, and all other parts of the ship in which goods are carried, fit and safe for their reception, carriage and preservation.
- 2. Subject to the provisions of Article IV, the carrier shall properly and carefully load, handle, stow, carry, keep, care for and discharge the goods carried.
- 3. After receiving the goods into his charge, the carrier, or the master or agent of the carrier, shall, on demand of the shipper, issue to the shipper a bill of lading showing among other things—
 - (a) The leading marks necessary for identification of the goods as the same are furnished in writing by the shipper before the leading of such goods starts, provided such marks are stamped or otherwise shewn clearly upon the goods if uncovered, or on the cases or coverings in which such goods are contained, in such a manifestas should ordinarily remain legible until the end of the voyage:
 - (b) Either the number of packages or pieces, or the quantity, or weight, as the case may be, as furnished in writing by the shipper:
 - (r) The apparent order and condition of the goods:

Provided that no carrier, master or agent of the carrier. shall be bound to state or show in the bill of lading any marks, number, quantity, or weight which he has reasonable ground for suspecting not accurately to represent the goods actually received, or which he has had no reasonable means of checking.

- 4. Such a bill of lading shall be prima facile evidence of the receipt by the carrier of the goods as therein described in accordance with paragraph & (a) (b) and (c).
- 5. The shipper shall be deemed to have guaranteed to the carrier the accuracy at the time of shipment of the marks, number, quantity, and weight, as turnished by him, and the shipper shall indemnify the carrier against all loss, damages, and expenses arising and resulting from inaccuracies in such particulars. The right of the carrier to such indemnity shall in no way limit his responsibility and liability under the contract of carriage to any person other than the shipper.
- 6. Unless notice of loss or damage and the general mature of such loss or damage be given in writing to the carrier or his agent at the port of discharge before or at the time of the removal of the goods into the custody of the person entitled to delivery thereof under the contract of carriage, or, if the loss or damage be not apparent, within three days, such removal shall be primd facie evidence of the delivery by the carrier of the goods as described in the bill of lading.

The notice in writing need not be given if the state of the goods has at the time of their receipt been the

subject of joint survey or inspection.

In any event the carrier and the ship shall be discharged from all liability in respect of loss or damage naless suit is brought within one year after delivery of the goods or the date when the goods should have been delivered. In the case of any actual or apprehended less or damage the carrier and the receiver shall give all reasonable facilities to each other for inspecting and tallying the goods.

- 7. After the goods are loaded the bill of lading to be issued by the carrier, master or agent of the carrier, to the shipper shall, if the shipper so demands, be a "shipped" bill of lading, provided that if the shipper shall have previously taken up any document of title to such goods, he shall surrender the same as against the issue of the "shipped" bill of lading, but at the option of the carrier, such document of title may be noted at the port of shipment by the carrier, master, or agent with the name or names of the ship or ships upon which the goods have been shipped and the date or dates of shipment, and when so noted the same shall for the purpose of this article be deemed to constitute a "shipped" bill of lading.
- 8. Any clause, covenant or agreement in a contract of carriage relieving the carrier or the ship from liability for loss or damage to or in connection with goods arising from negligence, fault or failure in the duties and obligations provided in this Article or lessening such liability otherwise than as provided in these Rules, shall be null and void and of no effect

A benefit of insurance or similar clause shall be deemed to be a clause relieving the carrier from liability.

ARTICLE IV.

Rights and Immunities.

I. Neither the carrier nor the ship shall be liable for loss or damage arising or resulting from unseaworthiness unless caused by want of due diligence on the part of the carrier to make the ship seaworthy, and to secure that the ship is properly manned, equipped and supplied, and to make the holds, refrigerating and cool chambers and all other parts of the ship in which goods are carried fit and safe for their reception, carriage and preservation in accordance with the provisions of paragraph 1 of Article III.

Whenever loss or damage has resulted from unseaworthiness, the burden of proving the exercise of due diligence shall be on the carrier or other person claiming exemption under this section.

Neither the carrier nor the ship shall in any event be or become hable tor any loss or damage to or in connection with goods in an amount exceeding 1007, per package or unit, or the equivalent of that sum in other currency, unless the nature and value of such goods have heen declared by the shipper before shipment and inserted in the bill of lading.

This declaration if embodied in the bill of lading shall be prima facie evidence, but shall not be binding or

conclusive on the carrier.

By agreement between the carrier, master or agent of the carrier and the shipper another maximum amount than that mentioned in this paragraph may be fixed, provided that such maximum shall not be less than the figure abovenamed.

Neither the carrier nor the ship shall be responsible in any event for loss or damage to or in connection with goods if the nature or value thereof has been knowingly.

rais-stated by the shipper in the bill of lading.

6. Goods of an inflammable, explosive or dangerous nature to the shipment whereof the carrier, master or agent of the carrier, has not consented, with knowledge of their nature and character, may at any time before discharge be landed at any place or destroyed or rendered innocaous by the carrier without compensation, and the shipper of such goods shall be liable for all damages and expenses directly or indirectly arising out of or resulting from such shipment.

If any such goods shipped with such knowledge and. consent shall become a danger to the ship or cargo, they may in like manner be landed at any place or destroyed or rendered innections by the carrier withour liability on the pare of the carrier except to general average, if any.

ARTICLE V.

Surrender of Rights and Immunities, and Increase of Responsibilities and Limbilities.

A carrier shall be at liberty to surrender in whole or in part all or any of his rights and immunities or to increase any of his responsibilities and liabilities under the Rules contained in any of these Articles, provided such surrender or increase shall be embodied in the bill of lading issued to the shipper.

The previsions of these Rules shall not be applicable to charterposities, but if bills of lading are issued in the case of a ship ander a charterparty they shall comply with the terms of these Rules. Nothing in these Rules shall be held to prevant the insertion in a bill of lading of any lawful provision reparding general flyerage.

ARTICLE VI.

Special Conditions.

Notwithstanding the provisions of the preceding Articles, a carrier, master or agent of the carrier, and a shipper shall in regard to any particular goods be at liberty to enter into any agreement in any terms as to the responsibility and liability of the carrier for such goods, and as to the fights and immunities of the carrier in respect of such goods, or his obligation as to seaworthiness, so far as this stipulation is not contrary to public policy, or the care or diligence of his servants or agents in regard to the loading, handling, stowage, carriage, custody, care, and discharge of the goods carried by sea, provided that in this case no bill of lading has been or shall be issued and that the terms agreed shall be embodied in a receipt which shall be a non-negotiable document and shall be marked as such.

Any agreement so entered into shall have full legal effect:

Provided that this Article stail not apply to ordinary commercial shipments made in the ordinary course of trade, but only to other shipments where the character or condition of the property to be carried or the circumstances, terms and conditions under which the carriage is to be performed, are such as reasonably to justify a special agreement.

ARTICLE VII .

Limitations on the Application of the Rules.

Nothing herein contained shall prevent a carrier or a shipper from entering into any agreement, stipulation,' condition, reservation or exemption as to the responsibility and liability of the carrier or the ship for the loss or damage to or in connection with the custody and care and handling of goods prior to the loading on and subsequent to the discharge from the ship on which the goods are carried by sea.

ARTICLE VIII.

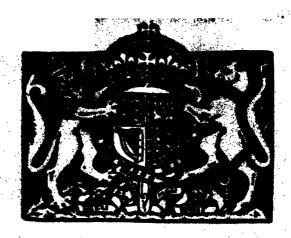

Limitation of Liability.

The provisions of these Rules shall not affect the rights and obligations of the carrier under any Statute for the time being in force relating to the limitation of the liability of owners of sea-going vessels.

ARTICLE IX.

The monetary units mentioned in these Rules are to be taken to be gold value.

- 57. The provisions of this Part which are set out in Schedule III shall, subject to the restrictions and modifications specified therein, apply—
 - (a) to all wills and codicils made, by any Hindu, Buddhist, Sikh or Jains, on or after the first day of September, 1870, within the territories which at the said date were subject to the Lieutenant-Governor of Bengal or within the local limits of the ordinary original civil jurisdiction of the High Courts of Judicature at Madras and Bombay; and
 - (b) to all such wills and codicils made outside those territories and limits so far as relates to immoveable property situate within those territories or limits:

Provided that marriage shall not revoke any such will or codicit.

General application of Part.

- **58.** (1) The provisions of this Part shall not apply to testamentary succession to the property of any Muhammadan nor, save as provided by section 57, to testamentary succession to the property of any Hindu, Budhist, Sikh or Jaina; nor shall they apply to any will made before the first day of January, 1866.
- (2) Save as provided in sub-section (1) or by any other law for the time being in force, the provisions of this Part shall constitute the law of British India applicable to all cases of testamentary succession.

CHAPTER II.

Of Wills and Codicils.

Person capable of

56. Every person of sound mind not being a minor may dispose of his property by will.

Explanation 1.—A married woman may dispose by will of any property which she could alienate by her own act during her life.

Explanation 2.—Persons who are deaf or dumb or blind are not thereby incapacitated for making a will if they are able to know what they do by it.

Explanation 3.—A person who is ordinarily insane may make a will dgring an interval in which he is of sound mind.

Explanation 4.—No person can make a will while he is in such a state of mind, whether arising from intoxication or from illuses or from any other cause, that he does not know what he is doing.

- (i) A can perceive what is going an in his immediate neighbour-hood, and can answer familiar goadlone, but has not a competent understanding as to the nature of his property, or the persons who are of kindred to him, or in whose favour it would be proper that he should make his will. A cannot make a valid will.
- (ii) A executes an instrument purporting to be his will, but he does not understand the nature of the instrument nor the effect of its provisions. This instrument is not a valid will.
- (iii) A being very feeble and debilitated, but capable of exercising a judgment as to the proper mode of disposing of his property, makes a will. This is a valid will.

Tentamentary

68. A father, whatever his uge may be, may by will appoint a guardian or guardians for his child during minority.

Will abtained by fraud, contains or importunity.

61. A will or any part of a will, the making of which has been caused by fraud or coercion, or by such importulity as takes away the free agency of the testator, is void.

Illustrations.

- (i) A faisely and knowingly represents to the testator that the testator's only child is dead, or that he has done some undutiful act and thereby induces the testator to make a will in his A's favour; such will has been obtained by fraud, and is invalid.
- (ii) A, by fraud and deception, prevails upon the tentator to bequest a logacy to him. The bequest is void.
- (iii) A, being a prisoner by lawful authority, makes his will. The will is not invalid by reason of the imprisonment.
- (ie) A threatens to alloot B, or to burn his house or to cause him to be arrested on a criminal charge, unless he makes a bequest in favour of C. B, in consequence, makes a bequest in favour of C. The bequest is void, the making of it having been caused by correlon.
- (v) A, being of sufficient intellect, if undisturbed by the influence of others, to make a will yet being so much under the control of B' that he is not a free agent, make a will, dictated by B. It appears that he would not have executed the will but for fear of B. The will is invalid.
- (si) A, being in so feable a state of health as to be unable to resist importunity, is pressed by B to make a will of a certain purport and dose so merely to purchase peace and in submission to B. The will is invalid.
- (vii) A being in such a state of health as to be expable of exercising his own judgment and volition, B cases argent intercession and persussion with him to induce him to make a will of a certain purport. A, in consequence of the intercession and persussion, but in the free exercise of his judgment and volition, make his will in the manner recommended by B. The will is not rendered invalid by the intercession and persussion of B.
- (viii) A, with a view to obtaining a legacy from B, pays him attention and flatters him and thereby produces in him a capricious partiality to A. B, in consequence of such attention and flattery, makes his will, by which he leaves a legacy to A. The bequest is not rendered invalid by the attention and flattery of A.

Will may be correct

62. A will is liable to be revoked or altered by the maker of it at any time when he is competent to dispose of his property by will.

CHAPTER III.

Of the Execution of unprivileged Wills.

Execution of apprivileged wille.

- 68. Every testator, not being a soldier employed in an expedition or engaged in actual warfare, or a mariner at sin, shall execute his will according to the fellowing ribes.
 - (a) The sectator shall sign or shall affix his mark to the will, as it shall be signed by some other person in his presence and by his direction.

- (b) The signature or mark of the testator, or the signature of the person signing for him, shall be so placed that it shall appear that it was intended thereby to give effect to the writing as a will.
- (v) The will shall be attested by two or more witnesses, each of whom has seen the testator sign or affix his mark to the will or has seen some other person sign the will, in the presence and by the direction of the testator, or has received from the testator a personal acknowledgment of his signature or mark, or of the signature of such other person; and each of the witnesses shall sign the will in the presence of the testator, but it shall not be necessary that more than one witness be present at the same time, and no particular form of attestation shall be necessary.

Incorporation of papers by reference

84. If a testator, in a will or codicil duly attested, refers to any other document then actually written as expressing any part of his intentions, such document shall be deemed to form a part of the will or codicil in which it is referred to.

CHAPTER IV.

Of privileged Hills.

.Privileged wills.

85. Any soldier being employed in an expedition or engaged in actual warfare, or any mariner being at sea, may, if he has completed the age of eighteen years, dispose of his property by a will made in the manner provided in section 66. Such wills are called privileged wills.

Illustrations.

- (i) A, a medical officer attached to a ragiment, is actually employed in an expedition. He is a soldier actually employed in an expedition, and can make a privileged will.
- (ii) A is at sea in a merchant-ship, of which he is the purser. He is a mariner, and, being at sea, can make a privileged will.
- (iii) A, ,a soldier serving in the field against insurgepts, is a soldier engaged in actual warfare, and as such can make a privileged will.
- (iv) A, a mariner of a ship, in the course of a voyage, is temporarily on shore while she is lying in harbour. He is, for the purposes of this section, a mariner at sea, and can make a privileged will.
- (v) A, an admiral who commands a naval force, but who lives on shore, and only occasionally goes on board his ship, is not considered as at sea, and cannot make a privileged will.
- (ei) A, a mariner serving on a military expedition, but not heing at sea, is considered as a soldier, and can make a privileged will.

Mode of making and raise for, executing, privileged wills,

- 66. (1) Privileged wills may be in writing, or may be made by word of mouth.
- (2) The execution of privileged wills shall be governed by the following rules:—
 - (a) The will may Us written wholly by the testator, with his own hand. In such case it need not be signed or attested.
 - (5) It may be written wholly or in part by another person, and signed by the testator. In such age it need not be attested.

- (c) If the instrument purporting to be a will is written wholly or in part by another person and is not signed by the testator, it shall be deemed to be his will, if it is shown that it was written by the testator's directions or that he recognised it as his will.
- (d) If it appears on the face of the instrument that the execution of it in the manner intended by the testator was not completed, the instrument shall not, by reason of that circumstance, be invalid, provided that his non-execution of it can be reasonably ascribed to some cause other than the abandonment of the testamentary intentions expressed in the instrument.
- (e) If the soldier or mariner has written instructions for the preparation of his will, but has died before irrould be prepared and executed, such instructions shall be considered to constitute will.
- (f) If the soldier or mariner has, in the presence of two witnesses, given verbal instructions for the preparation of his will, and they have been reduced into writing in his lifetime, but he has died before the instrument could be prepared and executed, such instructions shall be considered to constitute his will, although they may not have been reduced into writing in his presence, nor read over to him.
- (y) The soldier or mariner may make a will by word of mouth by declaring his intentions before two witnesses present at the same time.
- (h) A will made by word of mouth shall be null at the expiration of one mouth after the testator being still alive, has ceased to be entitled to make a privileged will.

CHAPTER V.

Of the Attentation, Revocation, Alteration and Revival of Wills.

Meet of gift to attenting witness

\$7. A will shall not be deemed to be insufficiently attested by reason of any benefit thereby given either by way of bequest or by way of appointment to any person attesting it, or to his or her wife or husband; but the bequest or appointment shall be void so far as concerns the persons so attesting, or the wife or husband of such person, or any person claiming under either of them.

Explanation.—A legatee under a will does not lose his legacy by attesting a codicil which confirms the will.

Witness aut disqualified by interest or by hoing succutor. No person, by reason of interest in, or of his being an executor of, a will shall be disqualified as a witness to prove the execution of the will or to prove the validity or invalidity thereof.

Sevention of will by teststor's marriage Rvery will shall be revoked by the marriage of the maker, except a will made in exercise of a power of appointment, when the property over which the power of appointment is exercised would not, in default of such appointment, pass to his or her executor or administrator, or to the person entitled in case of intestrey.

Applemention.—Where a man is invested with power to determine the disposition of property of which he is not the swaer, he is said to have power to appoint such property.

Revocation of unprivileged will or codicil 78. No unprivileged will or codicil, nor any part thereof, shall be revoked otherwise than by marriage, or by
another will or codicil, or by some writing declaring an
intention to revoke the same and executed in the manner
in which an unprivileged will is hereinbefore required to
be executed, or by the burning, tearing or otherwise
destroying the same by the testator or by some person in
his presence and by his direction with the intention of
revoking the same.

Illustrations.

- (a) A has made an unprivileged will. Afterwards A makes another unprivileged will which purports to revoke the first. This is a revocation.
- (ii) A has made an unprivileged will. Afterwards, A, being entitled to make a privileged will, makes a privileged will which purports to revoke his improvileged will. This is a revocation.

liffect of obliteration, interlineation or alteration in unprivileged will 71. No obliteration, interlineation or other alteration made in any unprivileged will after the execution thereof shall have any effect, except so far as the words or meaning of the will have been thereby rendered illegible or andiscernible, unless such alteration has been executed in like manner as hereinbefore is required for the execution of the will:

Provided that the will, as so altered, shall be deemed to be duly executed if the signature of the testator and the subscription of the witnesses is made in the margin or on some other part of the will opposite or near to such alteration, or at the foot or end of or opposite to a memorandum referring to such alteration, and written at the end or some other part of the will.

Revocation of privileged will or coduci

72. A privileged will or codicil may be revoked by the testator by an unprivileged will or codicil, or by any act expressing an intention to revoke it and accompanied by such formalities as would be sufficient to give 'alidity to a privileged will, or by the burning, tearing or otherwise destroying the same by the testator, or by some person in his presence and by his direction, with the intention of revoking the same.

Explanation. In order to the revocation of a privileged will or codicil by an act accompanied by such formalities as would be sufficient to give validity to a privileged will, it is not necessary that the testator should at the time of doing that act be in a situation which cutitles him to make a privileged will.

Revival of unprivileged will

- 73. (1) No unprivileged will or codicil, nor any part thereof, which has been revoked in any manner, shall be revived otherwise than by the re-execution thereof, or by a codicil executed in manner, hereinbefore required, and showing an intention to revive the same.
- (2) When any will or codicil, which has been partly revoked and afterwards wholly revoked, is revived, such revival shall not extend to so much thereof as has been revoked before the revocation of the whole thereof, unless an intention to the contrary is shown by the will or codicil.

CHAPTER VI

OF THE CONSTRUCTION OF WILLH.

Wording of will

74. It is not necessary that any technical words or terms of art be used in a will, but only that the wording be such that the intentions of the testator can be known therefrom.

inquiries to determine question as to shipert or subject of will. 78. For the purpose of Assermining questions as to what person or what precisity is denuted by any words used in a will, a Court shall tanker into every material fact relating to the persons who claim to be interested under such will, the property which is claimed as the subject of disposition, the strengetances of the testator and of his family, and into every fact a knowledge of which may conduce to the right application of the words which the testator has used.

I liustrations.

- (s) A, by his will, bequeaths 1,000 rupses to his eldest son or to his youngest grandolild, or to his cousis, Mary. A Court may make inquiry in order to ascertain to what parson the description in the will applies.
- (ii) A, by his will, leaves to B "my entate called Black Acre." It may be necessary to take evidence in order to assertain what is the subject-matter of the bequest; that is to say, what estate of the tentator's is called Black Acre.
- (iii) A, by his will, leaves to B "the estate which I purchased of C." It may be necessary to take evidence in order to ascertain what estate the testator purchased of C.

Misnomer or misdescription of object.

- 76. (1) Where the words used in a will to designate or describe a legatee or a class of legatees sufficiently show what is meant, an error in the name or description shall not prevent the legacy from taking effect.
- (2) A mistake in the name of a legatee may be corrected by a description of him, and a mistake in the description of a legatee may be corrected by the name.

Illustrations.

- (i) A bequeaths a logscy to "Thomas, the second son of my brother John". The testator has an only brother named John, who has no son named. Thomas, but has a second son whose name is William. William will have the legacy.
- (ii) A bequeaths a legacy "to Thomas, the second son of my brother John." The testator has an only brother, named John, whose first son is named Thomas, and whose second son is named William. Thomas will have the legacy.
- (iii) The testator bequeaths his property "to A and B, the legitimate children of C." C has no legitimate child, but has two illegitimate children, A and B. The bequest to A and B takes effect, although they are illegitimate.
- (ir) The testator gives his residuary estate to be divided among "my seven children" and, proceeding to enumerate them, mentions at masses only. This unission will not prevent the seventh child-from taking a share with the others.
- (s) The testator, having six grandchildren, makes a bequest to "my six grandchildren" and, proceeding to mention them by their Christian names, mentions one twice over omitting another altogether. The one whose name is not mentioned will take a share with the others.
- (w) The testator bequeaths "1,000 repose to each of the three children of A. At the date of the will A has four children Each of these four children will, if he survives the testator, receive a legacy of 1,000 repose.

When words may

77. Where any word material to the full expression of the meaning has been omitted, it may be supplied by the context.

Illustration.

The tentator gives a legacy of "five hundred" to his daughter A said a legacy of "five hundred supers" to his daughter B. A will take a legacy of five hundred supers.

* Rejection of errors on particulars in analytics of If the thing which the testator intended to bequestion he sufficiently identified from the description of it gives in the will, but some parts of the description shall be rejected as erroscous, and the bequest shall take effect.

Illustrations

- (6) A bequestion to \$\text{\$\text{\$}}^{1}\$ to \$\text{\$\text{\$}}^{2}\$ to \$\text{\$\text{\$}}^{2}\$ to property in \$L\$ and in the occupation of \$\text{\$\text{\$Z\$}}^{2}\$. The words in \$L\$ but had no marsh-lands in the occupation of \$\text{\$\text{\$Z\$}}^{2}\$, The words "in the occupation of \$\text{\$\text{\$Z\$}}^{2}\$ shall be rejected as arrogaous and the marsh-lands of the testator lying in \$L\$ will pass by the bequest.
- (ii) The hystator bequeaths to A "my mamindars of Rampur." He had an estate at Rampur but it was a taking and not a mamindars. The taking passes by this bequest

When part of description may not be rejected as erroneous 79. If a will mentions several circumstances as descriptive of the thing which the testator intends to bequeath, and there is any property of his in respect of which all those circumstances exist, the bequest shall be considered as limited to such property, and it shall not be lawful to reject any part of the description as erroneous, because the testator had other property to which such part of the description does not apply.

**Replanation.—In judging whether a case if alls within the meaning of this section, any words which would be liable to rejection under section 78 shall be deemed to have been struck out of the will.

Illustrations

- (a) A bequeaths to B 'my marsh lands lying in L and in the occupation of X." The testator had marsh lands lying in L, some of which were in the occupation of X, and some not in the occupation of X. The bequest will be considered as limited to such of the testator's mainlinkands lying in L as were in the occupation of X.
- (a) A bequeaths to B "my marsh lands lying in L and in the occupation of X, comprising 1,000 highes of lands." The testator had marsh-lands lying in L some of which were in the occupation of X and some not in the occupation of X. The measurement is wholly mapplicable to the marsh-lands of either class, or to the whole taken together. The measurement will be considered as struck out of the will, and such of the testator's marsh lands lying in L as were in the occupation of X shall alone pass by the bestweet.

Extrinse evidence admissible in cases of patent ambiguity 86. Where the words of a will are unambiguous, but is found by extrinsic evidence that they admit of applications, one only of which can have been intended by the testator, extrinsic evidence may be taken to show which of these applications was intended.

[llustrations

- (a) A man, having two consins of the name of Mary, bequeaths a sum of money to "my consin Mary". It appears that there are two persons, each answering the description in the will. That description, therefore, admits of two applications only one of which can have been intended by the testator. Evidence is admissible to show which of the two applications was intended.
- (4) A, by his will, leaves to B "my estate called Sultanpur Khurd." It turns out that he had two estates called Sultanpur Khurd. Evidence is admissible to show which estate was intended

Ratringle evidence inadmissible in case of patent ambiguity on deficiency."

21. Where there is an ambiguity or deficiency on the face of a will, no extrinsic evidence as to the intentions of the testator shall be admitted.

Ittusti attom

(i) A man has an aunt, Caroline, and a cousin, Mary, and has no aunt of the name of Mary. By his will be bequeatin 1,000 rupons to "my aunt, Caroline" and 1,000 rupons to "my count, Mary" and afterwards bequeaths 2,000 rupons to my before mentioned dunt, Mary". There is no parson to whom the description given in the will can apply, and evidence is not admissible to show who was meent by "my before mentioned annt, Mary." The bequest is therefore void for uncertainty under section 89.

(ii) A hoquesthe 1,000 repose to leaving a blank for the name of the lagatee. Evidence is not admissible to show what name the unitary intended to insert.

(66) A bequestly to B repose, or "my estate of Evidence in act administly to show what sum or what estate the testator intended to bijest.

Meaning of clause to be collected from entire will.

22. The meaning of any clause in a will is to be collected from the entire instrument, and all its parts are to be construed with reference to each other.

Illustrations.

- (i) The testator gives to B a specific fund or property at the death of A, and by a subsequent clause gives the whole of his property to A. The effect of the several clauses taken together is to vest the specific fund or property in A for life, and after his decease in B; it appearing from the bequest to B that the testator meant to miss in a restricted sense the words in which he describes what he gives to A.
- (ii) Where a testator having an estate, one part of which is called Black Acre; bequeaths the whole of his estate to A, and in another part of his will bequeaths Black Acre to B, the latter bequest is to be read as an exception out of the first as if he had said "I give Black Acre to B, and all the rest of my estate to A."

Here the son of B who shall first attain the age of 25 may be a son born after the death of the testater; such son may not attain 25 until more than 18 years have elapsed from the death of the longer liver of A and B; and the vesting of the fund may thus be delayed beyond the lifetime of A and B and the minority of the sone of B. The bequest after B's death is void.
- (ii) A fund is bequeathed to A for his life, and after his death to it for his life, and after B's death to such of B's sous as shall first attain the age of 25. B dies in the lifetime of the testator, leaving one or more sons. In this case the sons of B are persons living at the time of the textator's decease, and the time when either of them will attain 25 necessarily falls within his own lifetime. The bequest is valid.
- (iii) A fund is bequeathed to A for his life, and after his death to B for his life, with a direction that after B's death it shall be divided amongst such of B's children as shall attain the age of 18, but that, if no child of B shall attain that ago, the fund shall go to U. Here the time for the division of the found must arrive at the latest at the expiration of 18 years from the death of B. a person living at the testator's decease. All the bequests are valid.
- (iv) A fund is bequeathed to trustees for the benefit of the testator's daughters, with a direction that, if any of them marry under age, her share of the fund shall be settled so as to devolve after her death upon such of her children as shall attain the age of 18. Any daughter of the testator to whom the direction applies must be in existence at his decease, and any portion of the fund which may eventually be settled as directed must vest not later than 18 years from the death of the daughters willows share it was. All these provisions are valid.

CHAPTER VIIL

Of the vesting of Legacies.

Date of vesting of legacy when payment or possession postponed. 112. Where by the terms of a bequest the legatee is not entitled to immediate possession of the thing bequeathed, a right to receive it at the proper time shall, unless a contrary intention appears by the will, become vested in the legatee on the testator's death, and shall pass to the legatee's representatives if he dies before that time and without having received the legacy, and in such cases the legacy is from the testator's death said to be vested in interest.

Explanation.—An intention that a legacy to any person shall not become vested in interest in him is not to be inferred merely from a provision whereby the payment or possession of the thing bequeathed is postponed, or whereby a prior interest therein is bequeathed to some other person, or whereby the income arising from the fund bequeathed is directed to be accumulated until the time of payment arrives, or from a provision that, if a particular event shall happen, the legacy shall go over to another person.

Illustrations.

- (i) A bequesths to B 100 rupees, to be paid to him at the death of C. On A's death the legacy becomes vested in interest in B, and if he dies before C, his representatives are entitled to the legacy.
- (ii) A bequeatle to B 100 rupoes, to be paid to him upon his attaining the age of 18. On A's death the legacy becomes vested in interest in B.
 - (iii) A fund is bequeathed to A for life, and after his death to B. On the testator's death the legacy to B becomes vested in interest in B.
 - (ie) A fund is bequeathed to A until B attains the age of 18 and then to B. The legacy to B is vested in interest from the testator's death.
 - (v) A bequeaths the whole of his property to B upon trust to pay certain debts out of the income, and then to make over the fund to C. At A's death the gift to C becomes vested in interest in him.
 - (vi) A fund is hequesthed to A, B and C in equal shares to be paid to them on their sttaining the age of 18, respectively, with a provise that, if all of them die under the age of 18, the legacy shall devolve upon D. On the death of the testator, the shares vested in interest in A, B and C, subject to be divested in case A, B and C shall all die under 18, and, upon the death of any of them (except the last survivor) under the age of 18, his vested interest passes, so subject, to his representatives.

Date of 'vesting when legacy contingent upon specified understing event.

- 126. (7) A legacy bequeathed in case a specified uncertain event shall happen does not vest until that event happens.
- (2) A legacy bequeathed in case a specified uncertain event shall not happen does not vest until the happening of that event becomes impossible.
- (3) In either case, until the condition has been fulfilled, the interest of the legatee is called contingent.

Emption.—Where a fund is bequeathed to any person upon his attaining a particular age, and the will also gives to him absolutely the income to arise from the fund before he reaches that age, or directs the income, or so much of it as may be necessary, to be applied for his benefit, the bequest of the fand is not contingent.

- (ii) A sum of money is bequestings to A "in case he shall attain the age of 18," or "when he shall attain the age of 18." A's justiment in the legacy is contingent making the condition is fulfilled by his attaining that age.
- (iii) An estate is bequestised to A for life, and after his death to B if B shall not be then be living; but if B shall not be then living to C. A, B and C survive the testator. B and C each take a contingent interest in the estate until the event which is to vest it in one or in the other has happened.
- (iv) An estate is bequeathed as in the case last supposed. B dies in the lifetime of A and C. Upon the death of B, C acquires a vested right to obtain possession of the estate upon A's death.
- (a) A legacy is bequeathed to A when she shall attain the age of 18, or shall marry under that age with the consent of B, with a provise that, if she neither attains 18 nor marries under that age with B's consent, the legacy shall go to C. A and C each take a contingent interest in the legacy. A attains the age of 18. A becomes shouldely entitled to the legacy although she may have married under 18 without the consent of B.
- (vi) An estate is bequeathed to A until he shall marry and after that event to B. B's interest in the bequest is contingent until the condition is fulfilled by A's marrying.
- (vii) An estate is bequeathed to A until he shall take advantage of any law for the relief of insolvent debtors, and after that event to B. B's interest in the bequest is contingent until A takes advantage of such a law.
- (viii) An estate is bequeathed to A if he shall pay 500 rupees to A's interest in the bequest is contingent until he has paid 500 rupees to B.
- (iz) A leaves his farmerf Sultangur Khurd to B, if B shall convey his own farm of Sultanpur Buzurg to C. B's interest in the bequest is contingent until he has conveyed the latter farm to C.
- (x) A fund is bequeathed to A if B shall not marry C within five years after the testator's death. A's interest in the legacy is contingent until the condition is fulfilled by the expiration of the five years without B's having married C, or by the occurrence within that period of an event which makes the fulfilment of the condition impossible.
- (si) A fund is bequeathed to A if B shall not make any provision for him by will. The legacy is contingent until B's death.

He forfeits the shares in (X).

One of two segments and independent bequests to same person may be accepted, and other refused. Where a will contains two separate and independent bequests to the same person, the legatee is at liberty to accept one of them and refuse the other, although the former may be beneficial and the latter onerous.

Illustration.

A, having a lease for a term of years of a house at a rent which he and his representatives are bound to pay during the term, and which is higher than the house can be let for, bequeaths to B the lease and a sum of money. B refuses to accept the lease. He will not by this refusal foribit the money.

CHAPTER XXII.

Of Election.

- Where a person, by his will, professes to dispose of something which he has no right to dispose of, the person to whom the thing belongs shall elect either to confirm such disposition or to dissent from it, and in the latter case, he shall give up any benefits which may have been provided for him by the will.
- An interest relinquished in the circumstances stated in section 180 shall devolve as if it had not been disposed of by the will in favour of the legatee, subject, nevertheless, to the charge of making good to the disappointed legatee the amount or value of the gift attempted to be given to him by the will.

182. The provisions of sections 180 and 81 apply whether the testator does or does not believe that which he professes to dispose of by his will to be his own.

Illustrations.

- (i) The farm of Sultanpur was the property of C. A bequeathed it to B, giving a legacy of 1,000 rapees to C. C has elected to retain his farm of Sultanpur, which is worth 800 rupees. C forfeits his legacy of 1,000 rupees, of which 800 rupees goes to B, and the remaining 200 rupees falls into the residuary bequest, or devolves according to the rules of intestate succession, as the case may be.
- (ii) A bequeaths an estate to B in case B's elder brother (who is married and has children) shall have no issue living at his death. A also bequeaths to C a jewel, which belongs to B. B must elect to give up the jewel or to lose the estate.
- (iii) A bequeaths to B 1,000 rapees, and to C an estate which will, under a settlement, belong to 3 if his elder brother (who is married and has children) shall leave no issue living at his death. B must elect to give up the estate or to lose the legacy.
- (iv) A, a person of the age of 18, dominised in British India but owning real property in England, to which C is heir at law, bequestis a logacy to C and, subject thereto, devises and bequeatis to be "all my property whatsoever and wheresoever," and dies under 21. The real property in England does not pass by the will. C may claim his legacy without giving up the real proporty in England.

183. A bequest for a preon's benefit is, for the purpose of election, the same thing as a bequest made to himself.
